From Freedom Fighters to Jihadists Vera Mironova, 2019-05-20 At the start of the Syrian conflict in 2011 thousands of pro democracy rebel groups spontaneously formed to fight the Assad regime Years later the revolution was unrecognizable as rebel opposition forces had merged into three major groups Jabhat al Nusra Ahrar al Sham and the Islamic State in Iraq and Syria ISIS Why did these three groups rapidly increase in size and military strength while others simply disappeared What is it about their organizational structure and their Islamist ideology that helped group manage their fighters so successfully With these questions at the forefront this book examines the internal organization of armed groups and in particular their human resources Analyzing the growth of these groups through the prism of a labor market theory this book shows that extreme Islamist groups were able to attract fighters away from more moderate groups because they had better internal organization took better care of fighters both physically and monetarily experienced less internal corruption and effectively used their Islamist ideology to control recruits With unparalleled access and extensive ethnographic research drawn from her interviews and her year embedded with Iraqi Special Operation forces Mironova delves deep into the ideological and practical nexus of some of the most radical groups in the Middle East This book brings together more than 600 survey interviews with local civilians and fighters on the frontline in Syria and a dataset of human resource policies from 40 armed groups it is an invaluable resource for anyone who wants insight into the on the ground functioning of rebel organizations

The Knowing-Doing Gap Jeffrey Pfeffer, Robert I. Sutton, 1999-10-05 Why are there so many gaps between what firms know they should do and what they actually do Why do so many companies fail to implement the experience and insight they've worked so hard to acquire The Knowing Doing Gap is the first book to confront the challenge of turning knowledge about how to improve performance into actions that produce measurable results Jeffrey Pfeffer and Robert Sutton well known authors and teachers identify the causes of the knowing doing gap and explain how to close it The message is clear firms that turn knowledge into action avoid the smart talk trap Executives must use plans analysis meetings and presentations to inspire deeds not as substitutes for action Companies that

act on their knowledge also eliminate fear abolish destructive internal competition measure what matters and promote leaders who understand the work people do in their firms The authors use examples from dozens of firms that show how some overcome the knowing doing gap why others try but fail and how still others avoid the gap in the first place The Knowing Doing Gap is sure to resonate with executives everywhere who struggle daily to make their firms both know and do what they know It is a refreshingly candid useful and realistic guide for improving performance in today s business
