**Physical Modelling in Geotechnics, Volume 1** Andrew McNamara,Sam Divall,Richard Goodey,Neil Taylor,Sarah Stallebrass,Jignasha Panchal,2018-07-11 Physical Modelling in Geotechnics collects more than 1500 pages of peer reviewed papers written by researchers from over 30 countries and presented at the 9th International Conference on Physical Modelling in Geotechnics 2018 City University of London UK 17 20 July 2018 The ICPMG series has grown such that two volumes of proceedings were required to publish all contributions The books represent a substantial body of work in four

years Physical Modelling in Geotechnics contains 230 papers including eight keynote and themed lectures representing the state of the art in physical modelling research in aspects as diverse as fundamental modelling including sensors imaging modelling techniques and scaling onshore and offshore foundations dams and embankments retaining walls and deep excavations ground improvement and environmental engineering tunnels and geohazards including significant contributions in the area of seismic engineering ISSMGE TC104 have identified areas for special attention including education in physical modelling and the promotion of physical modelling to industry With this in mind there is a special themed paper on education focusing on both undergraduate and postgraduate teaching as well as practicing geotechnical engineers Physical modelling has entered a new era with the advent of exciting work on real time interfaces between physical and numerical modelling and the growth of facilities and expertise that enable development of so called megafuges of 1000gtonne capacity or more capable of modelling the largest and most complex of geotechnical challenges Physical Modelling in Geotechnics will be of interest to professionals engineers and academics interested or involved in geotechnics geotechnical engineering and related areas The 9th International Conference on Physical Modelling in Geotechnics was organised by the Multi Scale Geotechnical Engineering Research Centre at City University of London under the auspices of Technical Committee 104 of the International Society for Soil Mechanics and Geotechnical Engineering ISSMGE City University of London are pleased to host the prestigious international conference for the first time having initiated and hosted the first regional conference Eurofuge ten years ago in 2008 Quadrennial regional conferences in both Europe and Asia are now well established events giving doctoral researchers in particular the opportunity to attend an international conference in this rapidly evolving specialist area This is volume 1 of a 2 volume set Geotechnical Engineering in the Coastal Zone James W. Eckert, Gordon W. Callender, 1987 This is comprehensive report providing an overview of geotechnical engineering aspects for coastal engineers to use in planning and design of coastal projects The fundamentals of geotechnical engineering including coastal area soil classification and engineering properties of soil analyses are discussed first Then important geotechnical considerations in coastal site selection methodologies of subsurface exploration and soil testing techniques in the field and laboratory are discussed in the initial chapters The second half of this report focuses on specific types of coastal structures and the geotechnical aspects of each Shallow foundations for gravity structures emphasizing the bearing capacity and settlement analysis and retaining structures very common in the coastal area are discussed Particular emphasis is given to wave effects on bulkheads structures used to protect natural slopes The final two chapters deal with slope stability relative to embankments or other man made slopes such as breakwaters jetties and bulkenads as well as natural slopes The contribution of slope instability to bluff erosion and geotechnical design procedures for planning correctives structures are also discussed Keywords Coastal engineering Coasts Geotechnical engineering **Sustainable Buildings and Infrastructure** Annie R. Pearce, Yong Han Ahn, Ltd HanmiGlobal Co, 2017-12-14 The second edition of Sustainable Buildings and Infrastructure
