A Leader's Destiny Elias Aboujaoude, 2024-05-21 A psychiatrist puts leadership on the couch with a provocative exploration of its crucial often ignored psychological and personal character foundations Elias Aboujaoude's distinctive exploration of leadership explains how our cultlike obsession with leadership gives narcissists and sociopaths an edge and results in leadership failure everywhere we look and how resisting the imperative to rise at all costs leaves many with an inferiority complex His takedown of the leadership industrial complex pokes a very sharp elbow into an industry seemingly united in a modern form of alchemy to create leadership gold a waste of time and money Aboujaoude vividly illustrates since leaders emerge from a unique combination of personal psychological and situational factors that cannot be easily controlled or manipulated no matter how gifted the executive coach This bracing take on a classic subject provides new insight into the way psychology aligns with the requirements of effective and happy leadership The result is to empower us to understand ourselves and step up if we have what it takes to lead or find equally rewarding often superior ways to achieve fulfillment if we don't

Yesterday, Today, and Tomorrow Roslyn Arlin Mickelson,Stephen Samuel Smith,Amy Hawn Nelson,2017-11-14 Yesterday Today and Tomorrow provides a compelling analysis of the forces and choices that have shaped the trend toward the resegregation of public schools By assembling a wide range of contributors historians sociologists economists and education

scholars the editors provide a comprehensive view of a community's experience with desegregation and economic development. Here we see resegregation through the lens of Charlotte, North Carolina, once a national model of successful desegregation and home of the landmark Swann desegregation case which gave rise to school busing. This book recounts the last forty years of Charlotte's desegregation and resegregation, putting education reform in political and economic context. Within a decade of the Swann case, the district had developed one of the nation's most successful desegregation plans, measured by racial balance and improved academic outcomes for both black and white students. However, beginning in the 1990s, this plan was gradually dismantled. Today, the level of resegregation in Charlotte has almost returned to what it was prior to 1971. At the core of Charlotte's story is the relationship between social structure and human agency, with an emphasis on how yesterday's decisions and actions define today's choices. *Closing the Literacy Gap* Thomas G.

Education in a Digital World Neil Selwyn, 2013 Drawing on a wealth of theoretical and empirical work, *Education in a Digital World* tackles a number of pressing questions such as: how are global trends in educational technology refracted through national policies and processes? How exactly are educational technologies linked to issues of global economics and the fortunes of national and international economies? To what extent are digital technologies implicated in the commercialisation, marketization, and commodification of education? These questions and others are addressed throughout eight wide-ranging chapters which consider topics such as the national policy strategies of countries across North and South America, Europe, and East Asia; the educational technology portfolios of international organizations such as the United Nations and Microsoft; as well as the role of education and technology in international development and the on-going efforts to provide one laptop per child across low-income regions and countries. Through these examples, Selwyn develops a detailed analysis of education technology and globalisation, drawing together arguments and debates from various academic perspectives. Written in a detailed but accessible manner, this is an essential book for anyone wishing to gain a better understanding of the role of education and technology in contemporary globalised society. 15 Practice Sets for
