

## Essay Sample About Yourself

Describing myself is one of the toughest tasks to do, but it's fascinating too, to put it to words. I believe our traits – be they positive or negative – make us the person we are to the world. When it comes to my personality, people can have different opinions because they see what they want to see in me, and that's okay. So, I would describe myself from the paradigm I see myself from in different aspects.

As a person, I believe life is an art, and I am the artist of my life. I try to keep it full of colors and as cheerful as possible no matter what life throws at me. I am an enthusiast and a person full of curiosity. Curious to know what life is all about and what it holds in the future

I like to keep a smile on my face no matter what I am going through, and that smile keeps me going. Besides, I was brought up in a multicultural community. Therefore, I am an extrovert, and I like to meet people. I love to experience their lives, cultures, and traditions, which makes me happy and cheerful.

Moreover, I am reliable but very short-tempered. I lose my calm if not understood properly. I get very irritated internally, but that doesn't show in my behavior. However, I would like to change this character trait a little because my friends and dear ones often do not notice that I have some troubles. Thus, they do not offer help when I need it.

Good or bad, this is me, trying to contemplate the world as it is, revealing its true colors. I believe life is a gift, and it should be treated like one, with love, care, and respect.

**Writing Instruction and Intervention for Struggling Writers** Michael Dunn,2019-11-18 Writing is a challenging task for many children To address this issue many educational researchers advocate for schools to implement a multi tiered systems of support MTSS model where struggling writers can be detected as early as kindergarten and provided with intervention programming to improve their skills and hopefully not need long term placement in special education Traditionally schools have employed the wait to fail model where children were offered the opportunity to learn to read write and do math in the first few years of elementary school if they still struggled at the end of third grade age eight then they would be assessed for special education The problem with this was not only a delayed assessment timeline but also the standardized tests not having an adequate set of questions to assess early elementary grade skills as well as the ethical problems and racial ethnic biases of test questions MTSS provides educators with a renewed emphasis on early intervention and progress monitoring assessment once or twice a week to monitor each student s skills and make instructional changes to promote success This book offers a description and case examples of how schools and teachers can apply MTSS concepts for writing
