The Outline of Knowledge: The history of the world James Albert Richards, 1924 Classical Taste in the Architectural World of Thomas Jefferson Alley Marie Jordan, 2025-06-12 Reaching beyond politics and law this book focuses on Thomas Jefferson as an aesthetic classicist Jefferson embraced the influence of antiquity through his adoption of classical architecture in his Virginia residences in order to establish Rome as an ancestor to America In a time of significant political and cultural change he aligned himself with a Greco-Roman legacy that represented knowledge power and art Alley Marie Jordan studies the architectural and landscape spaces of Jefferson's classical taste which include the villas of Monticello and Poplar Forest as well as the University of Virginia An examination of these places exposes his deeply entrenched views of the importance of classics in Virginia and reveals them as expressions of admiration of classical antiquity Seeking to uncover an underexplored side of his character Jordan deconstructs his identity through a classical lens and illustrates his influence on American culture as well as his desire to reform it via the classics By dislodging Jefferson from American politics this study redefines his worldview and motivations for inventing an American virtue based on Horace's *utile dulci* Although his participation in acquiring classical taste was not unique for his time he did
