together and separating others as outlined in studies such as the National Sustainable Agriculture Society's report on the subject that shows each crop with at least three companionable crops and as many as four incompatible crops. Whether you are planting Tomatoes and Onions or Carrots and Corn the proper pairing of your plants can have a major impact on your eventual harvest and the quality of your vegetables. This book shows you the avid gardener everything you need to know to effectively pair your crops in a way that ensures there are no incompatibilities and that you get the most out of every seed. You will learn the basics of crop rotation and how it has been used since the dawn of cultivation almost 12 000 years ago to maintain the integrity of soil and harvests. You will learn how companion planting is an extension of this basic format and how it works in tandem with natural conditions and plant minerals to create the best produce. You will learn about how to prepare your garden and how to set the right system in place. You will learn via a chart and a great deal of detail about each possible combination the best possible companion plants as well as which plants are largely incompatible. You will learn about how perennials and shrubs coexist and the fundamentals of companion planting care and seasonal care of your plants. From the top tips and methods for this style of gardening to which plants bring good insects and which ones keep pests away you will learn everything you need to know to plot out and plant your perfect garden.

Cass Turnbull's Guide to Pruning, 2nd Edition Cass Turnbull, 2010-06-01 Nothing about pruning is obvious in fact most of it is downright counterintuitive says expert Cass Turnbull. This second edition of her definitive illustrated guide adds 40 percent new material with more coverage of different kinds of trees, shrubs and ground covers and how to prune them for health and aesthetics. The book is organized around the most common types of plants found in Northwest gardens: evergreen and deciduous shrubs, bamboos and tea roses, rhododendrons, camellia and other tree-like shrubs, hedge plants like boxwood and heather, clematis, wisteria and all those vines and detailed information on trees by species from dogwoods to weeping cherries. In her trademark witty style Turnbull also addresses tools, landscape renovation and design errors. Included too are her amusing Ten Commandments for gardeners which feature such treasures as "Thou shalt not weed whip the trunk of thy tree nor bash it with thine mower nor leave anything tied on thy tree or the branches of thy tree as is done in the land of the philistines."
