

IWRC Painter Training

Case Study

The Client

Omega Cabinetry, a division of MasterBrand Cabinets, Inc.

The Need

Regulatory compliance – painters must be trained annually to meet the wood furniture NESHAP (40 CFR 63, Subpart JJ)

The Solution

One-day customized painter training to meet the requirements of the regulation.

The Process

Omega's initial request to the IWRC for painter training was specific to meeting the training requirement for regulatory compliance. Six painters from the Waterloo, IA facility made the short trip to the IWRC's training facility in Cedar Falls, IA in June 2013.

Each painter went through a customized Omega/IWRC Painter Training process. At the start of the training, all six painters sprayed two parts. Once the pre-test was complete, the painters went through classroom, in-booth and VirtualPaint instruction. At the end of training, the painters were back in the booth to test their hand at the parts again for a post-test.

Like all wood furniture manufacturers, Omega Cabinetry must meet applicable environmental regulations. The Wood Furniture National Emissions Standard for Hazardous Air Pollutants (NESHAP) requires personnel involved in finishing to be trained annually.
