SharePoint 2010 Site Owner's Manual Yvonne M. Harryman, 2012-02-12 Summary SharePoint 2010 Site Owner's Manual teaches you what SharePoint 2010 is all about and how to get started using it. The book also includes step by step scenarios for implementing real world scenarios. You will learn how to build powerful sites leveraging SharePoint's out of the box functionality along with other helpful tools such as InfoPath Access and SharePoint Designer. About this Book This book is a guide for business users without programming skills who want to build their own SharePoint sites. With it you'll learn how to set up document sharing trackable workflows and many other business applications. You'll go step by step through real world scenarios like content management business intelligence sharing information on the web and search. Along the way you'll learn how to interact with other business tools like Access InfoPath and SharePoint Designer. This book is designed for SharePoint users who want to become tech savvy in configuring SharePoint's out of the box functionality. No programming or system administration experience is required. Purchase of the print book comes with an offer of a free PDF ePub and Kindle eBook from Manning. Also available is all code from the book. What's Inside Go from user to power user. Build on out of the box features. Customize your SharePoint site. Table of Contents PART 1 GETTING STARTED WITH SHAREPOINT Leveraging the power of SharePoint A deeper dive into SharePoint capabilities Creating sites using site and list templates PART 2 IMPLEMENTATIONS USING REAL WORLD SCENARIOS Setting up a document collaboration site Leveraging enterprise content management features Publishing information to the web Empowering users with business intelligence Creating application sites with SharePoint Designer Collecting and managing data by integrating with InfoPath Reporting and web applications using Access Pulling it all together with search My Sites and cross site functionality **How to Do Everything with Microsoft Office InfoPath 2003** David McAmis, 2004-02-25 Tap into the power of the newest member of Microsoft's Office suite. Learn to use InfoPath's robust set of tools to capture information that's locked away in document based forms. Quickly create forms and data gathering applications that use XML to separate form and content. This raw information can then be integrated into back end systems providing an end to end solution for data capture in the enterprise. *Enabling Health and Healthcare Through ICT* Karen L. Courtney, Omid Shabestari, Alex Mu-Hsing Kuo, 2013 For many people in both developing and developed countries universal healthcare is still not the norm. Socio economic status and geographical restrictions have proved to be major barriers to accessible care. The use of information and communication technologies ICT is growing rapidly internationally as the need to provide more efficient and cost effective care becomes increasingly urgent. Improving the health of a nation begins with the individual and recent developments in genomics and mobile networked information technologies have regenerated interest in individualizing healthcare. Harnessing the diversity and ubiquity of available ICT may be one of the keys to enabling more accessible healthcare across both geographic and socio economic divides. This book presents the proceedings of the 2013 Information Technology and Communication in Health ITCH 2013.

conference This conference entitled Available Tailored and Closer was held in Victoria BC Canada in February 2013 The theme of the ITCH 2013 conference was realizing the enabling potential of information and communications technology worldwide Papers in this book are arranged according to subject Sections include electronic health records telecare telemedicine and telaboratory public health informatics clinical decision support systems human computer interaction patient safety and healthcare modeling among others This book will be of interest to all those involved in providing improved and cost effective healthcare worldwide
