Photovoltaic Solar Energy Angèle Reinders, Pierre J. Verlinden, Wilfried van Sark, Alexandre Freundlich, 2017-01-03

Solar PV is now the third most important renewable energy source after hydro and wind power in terms of global installed capacity. Bringing together the expertise of international PV specialists, *Photovoltaic Solar Energy: From Fundamentals to Applications* provides a comprehensive and up-to-date account of existing PV technologies in conjunction with an assessment of technological developments. Key features: Written by leading specialists active in concurrent developments in material sciences; solar cell research and application driven; R chalcogenide thin film solar cells; thin film silicon based PV technologies; organic PV and III-Vs PV concentrator technologies; space technologies and economics; life cycle and user aspects of PV technologies. Each chapter presents basic principles and formulas as well as major technological developments in a contemporary context with a look at future developments in this rapidly changing field of science and engineering. Ideal for industrial engineers and scientists beginning careers in PV as well as graduate students undertaking PV research and high level undergraduate students. *The Ultimate Hiker's Gear Guide, Second Edition* Andrew Skurka, 2017-03-07

Whether you are a first time backpacker, an occasional weekend warrior, or a seasoned long distance trekker, this guide is a must for any backpacking, hiking, or camping trip. Supreme long distance hiker Andrew Skurka, accomplished adventure athlete, speaker, guide, and writer, shares his knowledge in this essential guide to backpacking gear and skills. Skurka recounts what he has learned from more than 30,000 miles of long distance hikes, including the Appalachian, Pacific Crest, and Continental Divide Trails, and the 4,700 mile Alaska Yukon Expedition. A show and tell guide to clothing, footwear, backpacks, shelter, and sleep systems, camp stoves, and more, as well as tips on foot care, campsite selection, and hiking efficiency, this single book contains all the knowledge you will need to hit the trail. This second edition features 16 new pages, including food on the trail and other essentials, and updates all gear recommendations. *Structures and Architecture* Paulo J. da Sousa Cruz, 2016-10-14

Although the disciplines of architecture and structural engineering have both experienced their own historical development, their interaction has resulted in many fascinating and delightful structures. To take this interaction to a higher level, there is a need to stimulate the inventive and creative design of architectural structures and to persuade architects and structural engineers to further collaborate in this process, exploiting together new concepts, applications, and challenges. This set of books of abstracts and full paper, searchable CD-ROM, presents selected papers presented at the 3rd International Conference on Structures and Architecture Conference (ICSA2016) organized by the School of Architecture of the University of Minho, Guimarães, Portugal, July 2016, to promote the synergy in the collaboration between the disciplines of architecture and structural engineering. The set addresses all major aspects of structures and architecture, including building envelopes, comprehension of complex forms, computer and experimental methods, concrete and masonry structures, educating architects and structural engineers, emerging technologies, glass structures, innovative architectural and structural design, lightweight

and membrane structures special structures steel and composite structures the borderline between architecture and structural engineering the history of the relationship between architects and structural engineers the tectonics of architectural solutions the use of new materials timber structures and more The contributions on creative and scientific aspects of the conception and construction of structures on advanced technologies and on complex architectural and structural applications represent a fine blend of scientific technical and practical novelties in both fields This set is intended for both researchers and practitioners including architects structural and construction engineers builders and building consultants constructors material suppliers and product manufacturers and other experts and professionals involved in the design and realization of architectural structural and infrastructural projects
