TO INVESTIGATE THE PROCESS OF MEIOSIS

Organisms produced by sexual reproduction are truly new organisms. They have different sets of genes from their parents. The gametes formed by meiosis are just for the purpose of sexual reproduction. Gametes cannot grow into another organism until they fuse with another gamete to form a zygote. When the zygote forms, it is genetically unique.

Genetic variation allows a species to have a better chance of adapting to and surviving sudden changes in the environment. No two individuals in a sexually reproducing population are exactly the same. Meiosis during sexual reproduction therefore ensures maximum genetic variation and improved the chances of a species' survival.

Source: Life Sciences Explained Grade 12

1. Study the electron micrographs showing various phases of meiosis

- 1.1 State the places where this process will take place in human females .

Life Science Pgrd12 Sep2014:

Dual-use life science research and biosecurity in the 21st Century: Social, Technical, Policy, and Ethical Challenges

Jonathan E. Suk, Kathleen M. Vogel, Amanda Jane Ozin, 2015-06-04 In September 2011 scientists announced new experimental findings that would not only threaten the conduct and publication of influenza research but would have significant policy and intelligence implications The findings presented a modified variant of the H5N1 avian influenza virus hereafter referred to as the H5N1 virus that was transmissible via aerosol between ferrets These results suggested a worrisome possibility the existence of a new airborne and highly lethal H5N1 virus that could cause a deadly global pandemic In response a series of international discussions on the nature of dual use life science arose These discussions addressed the complex social technical political security and ethical issues related to dual use research This Research Topic will be devoted to contributions that explore this matrix of issues from a variety of case study and international perspectives **Life Sciences**

Research to Product Development Pronobesh Chattopadhyay, Danswring Goyary, 2024-03-07 The present volume Life Sciences Research to Product Development Regulatory Requirement Transforming Volume 1 discusses the procedures of drug approval and regulatory requirements that must be met according to the United States Food and Drug Administration US FDA the European Medical Agency EMA and the Central Drug Standard Control Organization CDSCO Many researchers either abandon their work in the middle of the process or find it difficult to follow the rules Therefore it is not surprising that any biological researcher associated with drug development should have a thorough understanding of regulatory requirements This volume incorporates all the requisite regulatory norms and provides the latest information on the mandated regulation of herbal medicines The book covers other obligatory regulatory requirements such as The legal method and practice of herbal drug products the roles of Ayurvedic medicines and the process to obtain regulatory approval Drug molecules not included in Department of Ayurveda Yoga Naturopathy Unani Siddha and homeopathy AYUSH but referred to as phytopharmaceuticals are also considered new drugs The boundary line between food and herbal pharmaceuticals is discussed as well as pre clinical toxicity testing clinical trials and stability studies in accordance with the rules The chapter on regulatory implications for the approval process in this book will be the most useful resource for researchers and students particularly those with backgrounds in pharma forensic medicine or regulatory affairs or those who aspire to succeed in drug research Additionally the information contained in this volume of the book could be of great interest to researchers working in the herbal drug industry Ethics and Integrity in Health and Life Sciences Research Zvonimir Koporc, 2018-12-06 This important volume covers ethics and integrity in health and life sciences research It addresses concerns in gene editing dual use and misuse of biotechnologies big data and nutritional science in health and medicine and covers attempts at ensuring ethical practices in such fields are shared internationally

Social Sciences and Interdisciplinary Behavior Ford Lumban Gaol, Fonny Hutagalung, Nailya Bagautdinova, Lenar Safiullin, 2016-09-19 Social Sciences and Interdisciplinary Behavior

contains papers that were originally presented at the 4th International Congress on Interdisciplinary Behavior and Social Science 2015 ICIBSoS 2015 held 22-23 October 2015 at The Institute of Management Economics and Finance of the Kazan Federal University Kazan Russia and 7-8 November 2015 in Arya Duta Hotel Jakarta Indonesia The contributions deal with various interdisciplinary research topics particularly in the fields of social sciences education economics and arts The papers focus especially on such topics as language cultural studies economics behavior studies political sciences media and communication psychology and human development
