Marine Conservation and International Law Sarah Louise Lothian, 2022-07-22 This book provides a blueprint for an International Legally Binding Instrument ILBI for the conservation and sustainable use of marine biodiversity beyond national jurisdiction BBNJ The development of an ILBI could signify a pivotal turning point in the law of the sea by addressing regulatory governance and institutional gaps and deficiencies in the existing international law framework for BBNJ This book analyses the essential components an ILBI will require to effectively conserve and sustainably use BBNJ focusing on marine genetic resources area-based management tools environmental impact assessments capacity building and marine technology transfer It investigates potential areas of compromise as the success of an ILBI will rely upon the support of a powerful bloc of maritime States principally the United States the United Kingdom Russia the Netherlands France and Japan The participation of major maritime powers will be critical as it is their nationals corporations and flag vessels that have the financial and technical wherewithal to undertake activities beyond national jurisdiction This bloc of States has historically been the strongest proponent of the Grotian doctrine of freedom of the seas as it aligns with their predominant interest to preserve navigational freedom for their merchant and military fleets Accordingly this book assesses the extent to which the Grotian doctrine continues to exert influence on the development of the law of the sea and the development of an ILBI Providing a comprehensive overview of this important development in international law this book will be of interest to students lecturers and academics of law of the sea international environmental law and biodiversity law

A Brief Prehistory of the Theory of the Firm Paul Walker, 2018-05-11 The theory of the firm did not exist in any serious manner until around 1970 Only then did the current theory of the firm literature begin to emerge based largely upon the work of Ronald Coase and to a lesser degree Frank Knight It was work by Armen Alchian Robert Crawford Harold Demsetz Michael Jensen Benjamin Klein William Meckling and Oliver Williamson among others that drove the upswing in interest in the firm among mainstream economists This accessible book provides a valuable overview of the prehistory of the firm Spanning an impressive timeline it delves into Antiquity the Medieval era the pre classical economics period and the 19th and 20th centuries Next the book traces the theoretical contributions from pre classical classical and neoclassical economics It will be illuminating reading for students and researchers of the history of economic thought industrial organization microeconomic theory and business history

Expanding Boundaries: Systems Thinking in the Built Environment Guillaume Habert, Arno Schlueter, 2016-08-15 Consuming over 40% of total primary energy the built environment is in the centre of worldwide strategies and measures towards a more sustainable future To provide resilient solutions a simple optimisation of individual technologies will not be sufficient In contrast whole system thinking reveals and exploits connections between parts Each system interacts with others on different scales materials components buildings

cities and domains ecology economy and social Whole system designers optimize the performance of such systems by understanding interconnections and identifying synergies The more complete the design integration the better the result In this book the reader will find the proceedings of the 2016 Sustainable Built Environment SBE Regional Conference in Zurich Papers have been written by academics and practitioners from all continents to bring forth the latest understanding on systems thinking in the built environment

Inside Salafi-Jihadist Governance Marta Furlan, 2025-09-23 In the years following the Arab Spring a number of Islamist insurgent groups conquered swaths of territory across the Middle East and North Africa and began governing civilian populations These groups have been faced with the complexities of administering justice collecting taxes and providing public services such as health care and education How do Salafi jihadist armed groups which typically claim to be committed to ideological purity approach administration and what does this reveal about rule by insurgent forces This book is a groundbreaking comparative exploration of Salafi jihadist governance drawing on in depth case studies of the Islamic State in western Iraq and eastern Syria Hayat Tahrir al Sham in northwestern Syria and al Qaeda in the Arabian Peninsula in southern Yemen Marta Furlan examines rebels experiments in ruling considering issues such as the treatment of non Muslims the extent of civilian participation the use of coercive measures and the scope of social and political change She assesses whether there is a single model of Salafi jihadist governance the degree to which ideology and doctrine inform the behavior of rebel rulers and the similarities and differences between Salafi jihadists and other armed nonstate groups Offering a window into the inner workings of government and civilian life under Islamist power *Inside Salafi Jihadist Governance* sheds new light on rule by nonstate groups more broadly
