

My relationship with God

As a start for developing a closer relationship with God, I decided that I wanted to try daily devotionals and Bible reading. I considered finding a devotional guide, but instead decided to begin by simply reading the Bible for myself. I thought about finding a daily devotional guide, but chose instead to start my devotional readings by simply reading the New Testament and letting God speak to me as He determined not as some other person might have been inspired.

My decision was partially based on a need for this to be a personal journey and a knowledge that many people who attempt to read the Bible begin at the beginning and get discouraged when they reach the histories of the Books of Law. And, as a Christian, I believe the importance of the New Testament speaks for itself. This was a particularly difficult task for me. Choosing a time to read regularly and coupling it with prayer for understanding and meditation to determine the meaning of the scriptures was very difficult.

I discovered that the first thing in the morning was not a good time for me to try to read my Bible. Too often, I was overly tempted to hit the snooze button and often did not find my concentration level where it should be to really understand the scriptures, even though most of it was familiar territory. I then tried to do my devotional reading at the end of the day and found that too was a bad idea. Some days exhaustion seemed to bull me away from my studies in an untimely manner and I decided that too was a bad time. Instead I chose to set aside an hour every morning just before lunch.

This seemed to be the best time for me to be able to devote my attention to the Bible and not be distracted. I set an alarm to let me know when I could be done and then tuned out all distractions. In the three weeks, I managed to read through all of the gospel of Matthew and get started in Mark without feeling like it was a chore. As the time wore on, I found myself looking forward to my daily devotional more than I had in the beginning and found it was easier to maintain once I found the appropriate time. Intercessory prayer as a devotional tool also appealed to me.

Like many churches, the church I grew up in had a prayer chain devoted to praying for those in need. Remembering the peace and joy that came from praying for another person without any goal or personal motivation lead me to choose intercessory prayer. Practicing this devotional method reminded me of the need to be more worried about others than I am about myself. I thought this was going to be my favorite devotional form, but I found that it wasn't. Too often it felt like I was pushing my will onto God instead of allowing His will to work through me.

The other two devotional forms I chose were praise singing and random good deeds. These are the two forms of devotion which I believe had the biggest impacts on my life. I chose to do my devotional singing while in the car. I turne

A Very Personal Relationship. "God" and the Christian Religion and me Calvin K. Tillson Preddie, 2011-10-22 Our Sun is 26 000 light years away from the center of the Milky Way Galaxy and when we consider the size of the Milky Way Galaxy and view the relative size of the planets it puts the Earth into true perspective However it also magnifies Who What or Which Presence or Force s was were in the Beginning which is responsible for all the celestial bodies and all life of any kind in this and or any other universe This book is really about one individual s faith that whoever whatever or whichever was in the Beginning is of a Divine Nature to which he has assigned the term God It is about a Divinity that transcends the limited God as discussed in Romans 1 which was made to resemble the corruptible man which displeased God and lead to unseemly punishment for humans It is about faith in God of our and every universe The author believed then and more so now that everything that happened was exactly as God wished it to be He contends that events were used to encourage man to be innovative curious loving caring and also the opposites of all these characteristics and others so that progress of civilization could be accomplished which would lead to an eventual better human to populate the world of the future and perhaps to live in harmony with other life forms from other stellar bodies The book is about a God that members of all religions could believe in and which could be viewed satisfactorily even by some disbelievers This is the author s second non fiction work **Essays To My Children** Duane E. my opinion that the traditional language of faith is expressed in the language of antiquity the language of idealism the belief that the idea itself is the true reality Today we think in terms of realism the belief that what we experience through our senses is the true reality These essays are my attempt to transslaste faith s lanmguage of idealism into our contemporary language of realism There is the further complication found in the emphasis on the idea that Christ died to save ME which minimizes the ethical imperatives of the cross a particularly grave failing for a nation which now tries to rule the world as Rome did in the first century

Trauma, Religion and Spirituality in Germany during the First World War Jason Crouthamel, 2021-10-21 This book explores the impact of violence on the religious beliefs of front soldiers and civilians in Germany during the First World War The central argument is that religion was the main prism through which men and women in the Great War articulated and processed trauma Inspired by trauma

studies the history of emotions and the social and cultural history of religion this book moves away from the history of clerical authorities and institutions at war and instead focuses on the history of religion and war from below Jason Crouthamel provides a fascinating exploration into the language and belief systems used by ordinary people to explain the inexplicable From Judeo Christian traditions to popular beliefs and superstitions German soldiers and civilians depended on a malleable psychological toolbox that included a hybrid of ideas stitched together using prewar concepts mixed with images or experiences derived from the surreal environment of modern combat Perhaps most interestingly studying the front experience exposes not only lived religion but also how religious beliefs are invented Front soldiers in particular constructed new subjective spiritual and religious concepts based on encounters with industrialized weapons the sacred experience of comradeship and immersion in mass death which profoundly altered their sense of self and the supernatural More than just a coping mechanism religious language and beliefs enabled victims and perpetrators of violence to narrate concepts of psychological renewal and rebirth In the wake of defeat and revolution religious concepts shaped by the war experience also became a cornerstone of visions for radical political movements including the National Socialists to transform a shattered and embittered German nation Making use of letters between soldiers and civilians diaries memoirs and front newspapers *Trauma Religion and Spirituality in Germany during the First World War* offers a unique glimpse into the belief systems of men and women at a turning point in European history *Meditations on God and Man* Sastry V. Pappu, 2023-01-05 This book is a personal story of the author's conscious and subconscious meditations for decades in understanding the relationship between Physical Science Matter and Spiritual Science Spirit To put it another way it is a story about the relationship between Man Spirit masked by matter and GOD pure Spirit The meditations are the result of the author's lifelong interest in science in general and in physics in particular His upbringing in the ritual filled religious tradition of Hinduism evoked deep interest in finding the common ground of all religions With a conviction that there must be something more absolute than the physical and mental universe of man he spent his life time meditating and discovering that spirituality and religion are as different as day and night Through his meditation the author has been able to formulate his own concepts ideas and views about the relationship between GOD and Man The key message of this book is the time has come for mankind to get onto the integrated path of Benign Science and Pure Spirituality to save our wonderful planet and to prove the veracity of the Vedic dictum The entire earth is one family *IGen* Jean M. Trott,2019-09-18 What do Christianity and librarianship have in common Netherlands Prime Minister and theologian Abraham Kuyper 1837 1920 was among the first in the modern era to attempt to rejoin the dichotomy of sacred vs secular study when he said no single piece of our mental world is to be hermetically sealed off from the rest Over the years a number of publications have followed Kuyper s lead yet little has been written on the subject since Greg A Smith s notable Christian Librarianship 2002 Building on Smith s work this volume seeks to bridge the sacred secular divide with an exploration of how Christianity and the gospel are manifested through the profession of librarianship **Christians and Evolution** R J Berry,2014-11-19 The debate surrounding creation and evolution divides Christians particularly evangelicals It has been a stumbling block for young Christians and a point of contention for the new Atheists Professor R J Berry assembles a wide range of distinguished contributors all convinced committed and orthodox Christian believers each of whom has undertaken a conceptual journey based on sound science and careful theology from a creationist position to one in which God s creation and the processes of evolution are properly and credibly integrated Christians and Evolution is a luminous volume that offers a pathway for doubters sceptics and conservative Christians to embrace the overall scientific consensus of the evolutionary approach while holding solidly and without reservation to the doctrines of God s creation and God s omnipotence This text is a must read for anyone interested in the creation v evolution debate God Philip C. Almond,2018-06-12 In this elegant new book the sequel to his earlier much praised treatment of the Devil Philip Almond reveals that whether in Judaism Christianity or Islam God is seen to be at once utterly beyond our world yet at the same earnestly desiring to be at one with it In the Christian chapter of this story the paradox arguably reaches its improbable zenith in the fragile form of a human being the infinite became finite the eternal temporal The way these and other metaphysical tensions have been understood is the author demonstrates the key to unlocking the entire history of religion in the West Expertly placing the narrative of divine presence within the wider history of ideas Almond suggests that the notion of a deity has been the single greatest conundrum of medieval and modern civilization In this rich nuanced appraisal God is shown to be more complex and fascinating than ever before
