

This mysterious math lesson introduces young learners to teen numbers and math vocabulary.

Learning Objectives

Students will be able to order numbers from zero to 20, and describe the relationship between numbers using content-specific vocabulary.

Materials and preparation

- Class set of large cards numbered zero to 20
- Number line
- Two sticky notes with stars or some other symbol drawn on them
- Class set of student whiteboards, dry erase markers, and erasers

Key terms

- before
- after
- between

Introduction (10 minutes)

- Randomly pass out a card with a different number starting with zero to each student in the class.
- Tell students that when you say, "Go!" students should line up in numerical order.
- Have students look at the number on their card. Tell students to think about what numbers come **before** or **after** their number. Ask them to think about which other numbers they will be **between**.
- Say, "Go!" and allow students time to line up in order.
- Once everyone has lined up in order, have each student call out and hold up their number, beginning at zero.
- Frontload vocabulary by asking students to notice which students are before and after them in the line. Ask students which other students they are standing between. Point out that no one is before zero.
- Collect the number cards and have students return to their spots on the rug.

EL

Beginning

- Review numbers 0-20 by counting aloud and having the students echo count after you.

Intermediate

- Chorally count from 0-20 using a number line as a reference.

Explicit Instruction/Teacher modeling (5 minutes)

- Display a number line and comment on how students lined up in the same order that the numbers appear on the number line.
- Tell students that today they will practice guessing a mystery number that is between two other numbers.
- Enrich low vocabulary by asking students which number is between 10 and eight. Make students show
