

The background of the cover is a dark, deep blue or black. It features a complex, glowing pattern of magnetic field lines. These lines are concentrated in the center-right area, where they form a dense, swirling vortex. From this central point, numerous lines radiate outwards, some following a more circular path while others extend straight out. The lines are colored in a gradient, with the innermost and most concentrated areas being a bright, fiery orange or yellow, transitioning through red and purple to a deep blue as they move further away. On the left side of the cover, there is a soft, out-of-focus glow of light, appearing as a cluster of bright yellow and white points, suggesting a distant star or a nebula. The overall effect is one of dynamic energy and scientific wonder.
