Essays in Controversy - Some Disturbing and Unsettling Realities Sumitra Woodhull, 2014-10-24 This is a piece of work predominantly inspired by the author's own experiences as a person of minority ethnicity in a racially biased multiracial society. The many experiences of prejudice in such a society have prompted the author to advocate against such abuses of human rights. Short Essays Gerald Levin, 1995 **Essays in Biography** Joseph Epstein, 2012-09-14 Who is the greatest living essayist writing in English? Unquestionably Joseph Epstein. Epstein is penetrating. He is witty. He has a magic touch with words that hard to define but immediately recognizable quality called style. Above all, he is impossible to put down. How easy it is today to forget the simple delight of reading for no intended purpose. Each of the 39 pieces in this book is a pure pleasure to read. Now with linking endnotes and index. *Philosophy History Sophistry* Dennis Rohatyn, 2022-04-25 Post modernism believes in nothing, not even unbelief. Hence it is a genial version of nihilism and the flip side of despair. Like skepticism from which it descends, it is healthy insofar as it rejects all dogmas but unhealthy insofar as it substitutes its own while eating its own essence. This book diagnoses this disease and offers irony as its cure. What failure of nerve did to Hellenism, strength of character must do for the decline of the West. Humor, laughter, and detachment are the gifts of historical art and of Socratic science. As we take refuge in the myth of truth, we must realize that there is no truth in myth and no comfort in illusion except the lie of immortality. **Adrenal Cortex** David C. Anderson, Jeremy S. D. Winter, 2013-10-22 *Adrenal Cortex* presents a critical review of functional and structural zonation of the cortex. It discusses the regulation of adrenocortical function by control of growth and structure. It also addresses the adrenal cortex in the fetus and neonate. It demonstrates the cellular mechanisms involved in the acute and chronic actions of ACTH. Some of the topics covered in the book are the molecular structures of mineralocorticoid and glucocorticoid receptors, description of adrenarche and adrenal hirsutism, types of congenital enzymatic defects of the adrenal, aetiology and management of Cushing's syndrome, and the relationship between adrenal cortex and hypertension. The description and characteristics of adrenocortical dysfunction are fully covered. The interactions between the adrenal cortex and medulla are extensively discussed. An in-depth analysis of the pharmacokinetics of natural and synthetic glucocorticoids is provided. A study of the regulation of normal steroidogenesis by adrenocortical structure is well presented. A chapter is devoted to the possible role of the vascular system in neural stimulations. The book can provide useful information to neurologists, doctors, students, and researchers. Disturbing Argument Catherine Palczewski, 2015-01-30 This edited volume represents the best of the scholarship presented at the 18th National Communication Association American Forensic Association Conference on Argumentation. This biennial conference brings together a lively group of argumentation scholars from a range of disciplinary approaches and a variety of countries. *Disturbing Argument* contains selected works that speak both to the disturbing prevalence of violence in the contemporary world and to the potential of argument itself to disturb the very relations of power that enable that violence.
