AP Environmental Science is an AP course that is designed to be equivalent to a college-level introductory environmental science course. The course is designed to be completed in one year, with a summer session or a semester of review.

Course Objectives:

- Understand the scientific method and the role of science in society.
- Understand the relationship between science and technology.
- Understand the impact of human activities on the environment.
- Understand the role of the environment in human health and well-being.

Course Structure:

The course is divided into four main units:

- Unit 1: The Scientific Method and the Role of Science in Society
- Unit 2: The Relationship Between Science and Technology
- Unit 3: The Impact of Human Activities on the Environment
- Unit 4: The Role of the Environment in Human Health and Well-being

Course Materials:

The course materials include a textbook, a lab manual, and a series of lab exercises. The textbook is the primary source of information for the course, and the lab manual provides detailed instructions for the lab exercises. The lab exercises are designed to help students understand the scientific method and the role of science in society.

Course Evaluation:

The course is evaluated using a variety of methods, including quizzes, exams, and lab reports. The quizzes and exams are designed to test students' understanding of the course material, and the lab reports are designed to assess students' ability to apply the scientific method in a practical setting.
