Hitachi Remote Manual:

Japan's Software Factories Michael A. Cusumano, 1991-05-16 Though Japan has successfully competed with U S companies in the manufacturing and marketing of computer hardware it has been less successful in developing computer programs This book contains the first detailed analysis of how Japanese firms have tried to redress this imbalance by applying their skills in engineering and production management to software development Cusumano focuses on the creation of software factories in which large numbers of people are engaged in developing software in cooperative ways i e individual programs are not developed in isolation but rather utilize portions of other programs already developed whenever possible and then yield usable portions for other programs being written Devoting chapters to working methods at System Developing Corp Hitachi Toshiba NEC and Fujitsu and including a comparison of Japanese and U S software factories Cusumano's book will be important reading for all people involved in software and computer technology as well as those interested in Japanese business and corporate culture

Guide to HDTV Systems Conrad Persson, 1999 As HDTV is developed refined and becomes more available to the masses technicians will be required to service them Up until now precious little information has been available on the subject This book provides a detailed background on what HDTV is the technical standards involved how HDTV signals are generated and transmitted and a generalized description of the circuitry an HDTV set consists of
