

Evaluation Stage

6.1.0 Self Assessment (Time line)

This project was handed in the draft form to us in Nov 2010 and composed of three main parts.

- Planning
- Development
- Evaluation
- Two deadlines were set, one for Planning stage which was **3rd Dec 2010**
- Development stage & Evaluation stages were supposed to be submitted before or on **20th May 2011**.

Planning stage was done in time and was handed in and I was supposed to set up a different dates in that stage which I have to follow during the project. My main activities were decided and I have set certain dates in my planning stage and in this part of my project I am supposed to compare difficulties and issues and problems which I have faced through and my activities as compared to my initial set dates in planning stage.

6.1.1 Sections Strategy in Development Section and Evaluation Strategy

For the simplicity of my project I have split the development into different sections according to their significance and I would recommended this because

- It actually helps us to progress on the different activities at same time, provided they are not dependent on each other.
- It makes easy to read from title and sections one can easy access any part without taking longer time to search information and all the activities get covered in these sections.
- My main detailed area of research was Sustainability, Energy Efficiency and Frame design. Generally as for today I would add that activities took longer than their set dates. Issues were different according to their implications. For this section I have adopted same approach So that reader of this project could exactly know where I got problem and how I have tackled them. So I start from the very beginning

6.1.2 Issues with Time Management

6.1.3 Contract Management

The first thing was to choose the contract arrangement for this project, now this part was considered by me very easy, I thought it a straightforward from number of contract arrangement but when literature was reviewed, it seems like every contract arrangement got some demerits so

WCP Survey, Questions and Answers ,1988 *Handbook of Classroom Management* Carolyn M. Evertson, Carol S.

Weinstein, 2013-10-31 Classroom management is a topic of enduring concern for teachers administrators and the public It consistently ranks as the first or second most serious educational problem in the eyes of the general public and beginning teachers consistently rank it as their most pressing concern during their early teaching years Management problems continue to be a major cause of teacher burnout and job dissatisfaction Strangely despite this enduring concern on the part of educators and the public few researchers have chosen to focus on classroom management or to identify themselves with this critical field The Handbook of Classroom Management has four primary goals 1 to clarify the term classroom management 2 to demonstrate to scholars and practitioners that there is a distinct body of knowledge that directly addresses teachers managerial tasks 3 to bring together disparate lines of research and encourage conversations across different areas of inquiry and 4 to promote a vigorous agenda for future research in this area To this end 47 chapters have been organized into 10 sections each chapter written by a recognized expert in that area Cutting across the sections and chapters are the following themes First positive teacher student relationships are seen as the very core of effective classroom management Second classroom management is viewed as a social and moral curriculum Third external reward and punishment strategies are not seen as optimal for promoting academic and social emotional growth and self regulated behavior Fourth to create orderly productive environments teachers must take into account student characteristics such as age developmental level race ethnicity cultural background socioeconomic status and ableness Like other research handbooks the Handbook of Classroom Management provides an indispensable reference volume for scholars teacher educators in service practitioners and the academic libraries serving these audiences It is also appropriate for graduate courses wholly or partly devoted to the study of classroom management **Resources in Education** ,1995 Resources in Vocational Education ,1978
