

Client Report

Shanty Town

Upon showing the marketing scheme to a client, we received some constructive feedback on how to change it for the better.

What did the client believe were the strongest parts of your presentation?

They liked the idea that we were using the game as a break-in for future endeavours in the Twine community and that we were planning to promote the game around the time of the 2014 FIFA World Cup, which is being hosted in Brazil. They also liked the concept surrounding the game, that the game is based on a real country in poverty.

What did the client feel should be improved or developed?

The client felt that a large amount could be improved in the actual strategy itself, mainly that the concepts are good, but that there is nothing yet to link it up and it is unclear what is the aim of the strategy. Below are a few points that they felt could be improved on:

- The client advised us to expand on the setting in our game. They thought that the idea of releasing the game near the world cup was a good idea, but that we could also tie in the game with the political unrest in Brazil. They advised us to do our research into the political issues surrounding the country and use it in the game.
- They also made some comment towards the concept art, saying that one particular image (the man in the balaclava), did not represent Brazil very well and that we should research imagery to do with Brazil and come up with some images that remind the audience of Brazil or any exotic country a bit better, like the one pictured below:
