How To Sew With Leather And Suede:

How to Sew with Leather and Suede S Denise Hoyle, 2014-10-12 Genuine leather is one of the oldest and most luxurious of all natural materials. Leather is the hide or skin of an animal, bird, or reptile after it has been tanned or treated by a chemical process to preserve it. Hides come from larger animals such as cattle, buffalo, or elephant, and skins are from smaller animals, birds, and reptiles. Leather is suitable for all seasons for men, women, and children, and almost any pattern may be made out of leather. Sewing leather and suede does not require a special sewing machine if using lightweight skins, but it does require the use of special sewing techniques. This book was written to provide a starting place and guide for the beginner as well as to provide some helpful tips for the more advanced sewer. Learn everything you need to know about sewing with leather and suede in this book, plus you'll receive free patterns and designs to get you started. **How to Sew**

Chapter Two is devoted to different fabrics and how they work, focusing on the construction of a garment, including fastenings and trimmings, and the use of materials to support structured pieces such as corsets. Hand sewing techniques and basic seams are explored in Chapter Three. Techniques are demonstrated with step-by-step photographic guides combined with technical drawings. A guide to making garment details and decorations such as pockets, waistlines, and necklines is found in Chapter Four. Chapter Five addresses fabric-specific techniques for everything from lace to neoprene. The best technical approaches to use for patternmaking and construction are discussed for each fabric. Catwalk images demonstrate how these kinds of techniques are employed by designers.
