Risk Thinking Ron S. Dembo, 2021-07-23 Our age of radical uncertainty requires a new way of assessing risk that pays more attention to the extreme outliers that too often become tomorrow's reality. Today's models cannot cope with the frightening new unpredictable risks we face every day that frequently seem to come out of left field: the effects of climate change, a killer pandemic, a cascading wildfire, a financial crisis triggered by faceless algorithms, or a devastating cyber attack that shuts down the electric power grid. This accessible book advocates a new, more realistic approach to analyzing risk and strategizing, one that is less reliant on a single solution or unnuanced forecast. They help us look for the almost unimaginable situations that we cannot see. The book targets non-technical and technical individuals who are faced with complex decisions. Here is what some thought leaders are saying about *Risk Thinking*. Had we central bankers employed Dembo's risk thinking approach and analytical tools, we could have avoided the Great Financial Crisis. David Dodge, former Governor of the Bank of Canada. A provocative and clear manual for anyone trying to assess risks today. Gillian Tett, Financial Times Editorial Board and Editor at large, U.S. Enjoy this book. It is insightfully written, fun to read, and assesses risks to navigating our uncertain future. Col. Chris Hadfield, engineer, test pilot, and astronaut. Formerly Commander of the International Space Station and NASA Director of Operations in Russia. We can all think of major recent failures to manage risk in the economy, financial services, health care, and climate change as the world

becomes more complex managing risk will become more important and more difficult This book provides an effective and refreshingly practical framework for addressing this challenge Mike Pedersen Chairman Business Development Bank of Canada Former President at and CEO TD Bank America s Most Convenient Bank In Risk Thinking Ron Dembo gives the reader tools to unravel the mysteries of risk in an accessible and eloquent way This is a must read for any strategic thinker and emerging leader looking to thrive in an uncertain world Dr Phil De Luna Carbontech Innovator and selected as one of Forbes 30 Under 30
