Infections In Hematology:

Infections in Hematology Georg Maschmeyer, Kenneth V.I. Rolston, 2014-12-13 Infections are among the most frequent complications in patients with hematological malignancies and in those undergoing high dose chemotherapy and autologous hematopoietic stem cell transplantation A profound knowledge on the epidemiology diagnostic approaches treatment modalities and prophylactic strategies is essential for the clinical management of these complications in patients who are often severely immunocompromised owing to their underlying diseases and in particular the intensive myelosuppressive chemo and immunotherapy This textbook provides a clinically oriented compact and up to date overview on infections in hematology patients and their management The typical pathogens to be considered in different subgroups of patients are identified and further aspects of the microbiological background are explored Clinical imaging and laboratory based diagnostic techniques are discussed and therapeutic strategies appropriate to different situations are then presented with due attention to the pitfalls toxicities and interactions that can arise during antimicrobial treatment Strategies to prevent infection are also outlined encompassing antimicrobial prophylaxis isolation procedures hospital hygiene protective immunization and the use of hematopoietic growth factors

Infection Management in Hematology

Oliver A. Cornely, Martin Hoenigl, 2020-10-21 This book provides a thorough update on the management of infections in patients with hematologic malignancies focusing particularly on prevention diagnosis and treatment Detailed attention is devoted to the central roles that vaccination and anti infective prophylaxis have gained in improving overall survival in this patient group in accordance with the principle that prevention is better than cure Careful consideration is also paid to risk stratification which is crucial in ensuring that anti infective prophylaxis is targeted to those at the highest risk While preventive strategies reduce the prevalence of infections optimized management strategies are vital to decrease infection related morbidity and mortality in those who nevertheless develop infections Here readers will find in depth up to date knowledge on the diagnosis and treatment of bacterial fungal viral and parasitic infections according to the affected organ and the causative pathogen Finally treatment in intensive care units is reviewed The book will be of high value for hematologists oncologists and infection specialists

Infections in Hematology Igor Stoma, 2019-03-22 This book explores a range of infections in hematology It draws on extensive clinical experience and the results of modern research and identifies new directions in this area of clinical medicine It is known that along with progress in medicine the evolution of microbes also occurs with resistance to antibiotics growing and new forms of infectious diseases emerging As such the findings of this book are particularly timely

Managing Infections in Patients With Hematological Malignancies Michael Kleinberg, 2009-10-20 Managing infections that complicate care of neutropenic patients with leukemia and hematopoietic stem cell recipients has become a distinct specialty In *Managing Infections in Patients with Hematological Malignancies* the authors and editor draw on their extensive expertise while providing a roadmap for hematologists to efficiently manage the complex infections within their

patients The first section of the text reviews viral bacterial and fungal pathogens and provides brief descriptions of the microbes and diseases they cause in patients with hematological malignancies The second section is devoted to management of infections in patients with the different underlying hematological malignancies while the third addresses several important topics that are often ignored in most books about infections and hematological malignancies Managing Infections in Hematological Malignancies is a useful tool for all clinicians and practicing hematologists who treat individual patients and aspire to build stronger infectious diseases programs within their respective cancer centers **Pediatric Hematology**
