Jsc Real Question Out 2014:

Lawfare and Judicial Legitimacy Kate Dent, 2023-07-28 Lawfare is a complex and evolving concept with many permutations. It is a term that is used to describe both a judicialisation of politics where the Constitutional Court is called upon to uphold constitutional responsibilities compensating for institutional failures in the broader democratic space and instances where there is abuse of the legal process to escape accountability. When the court is dragged into politics it forces an examination of the legitimate scope of judicial review. This book explains how judicialisation of politics leads to the politicisation of adjudication and further weaponisation of the law. Exploring the judicial political dynamics of South Africa from 2009 onwards the work traces the consequences of the judicialisation of politics for institutional resilience and broader constitutional stability. Through an in depth study of judicial legitimacy the book seeks to provide an overarching theoretical justification for the dangers that inhere in lawfare. It analyses the potential costs of both judicial statesmanship and strategies of deference and avoidance when trying to navigate the Court safely through the era of lawfare. South Africa offers an interesting crucible within which to observe an unfolding global trend. Strengthened by its comparative focus the implications of lawfare presented in this book transcend the South African context and are applicable to other jurisdictions in the world. The book will be of interest to researchers academics and practitioners working in the areas of Constitutional Law and Politics.

Business 4.0 as a Subject of the Digital Economy Elena G. Popkova, 2022-06-14 This book substantiates the transformation processes in the system of modern entrepreneurship in the conditions of formation of Industry 4.0. The authors develop a scientific concept of business 4.0, determine the specific features of business 4.0 and current problems and perspectives of its development in developed and developing markets, study the infrastructural provision of business 4.0 in view of its sectorial specifics, outline the perspectives and recommendations in the sphere of development of business 4.0 and offer the scientific and practical recommendations for state and corporate management.

Economic Development and Entrepreneurship in Transition Economies Jovo Ateljević, Jelena Trivić, 2016-04-05 This book contributes to a better understanding of entrepreneurship in transition economies. Current literature reflects the more traditional schools of thought on entrepreneurship which are influenced by the Western perspective and fail to fully address the scenario in transition economies. There is a broad consensus among academics, policy makers and practitioners that a fundamental cause of difficulties experienced by most economies in transition has been the fact that reform has not been accompanied by the creation of new private businesses and particularly SMEs. This is especially evident in states created in Europe after the dissolution of the Soviet Union where many barriers which were inherited from the old system remain in place thus inhibiting entrepreneurial progress in these countries despite a favorable political and economic environment. The contributions featured in this book focus on how much progress has been achieved so far with regard to these aspects as well as identify which current barriers and issues still need to be resolved. Themes include innovation, performance, financing, venture capital.

educational factors and entrepreneurial learning *Intellectual Property in Russia* Natalia M. Udalova, Anna S. Vlasova, 2021-07-28 Intellectual property rights are essential for a firm's competitive edge and success and form the significant assets for many firms. The authors of this book argue that intellectual property is a complex phenomenon which inevitably requires a combination of both economic and legal considerations because the lack of understanding of the mechanisms for the protection and preservation of IP can serve to undermine any of the potential economic benefits. The book outlines the opportunities that can be derived from the use of IP in business and also identifies the rules necessary for their implementation. It offers a comprehensive systemic research of intellectual property based on the most up-to-date legislation and cases of IP use in Russia. Such an approach will allow readers to fully understand the peculiarities of IP as a special phenomenon of the Russian market. There is a good balance between theoretical knowledge and practical implementation, and the plain language and unique approach to structuring information make the book accessible and easy to understand. It contains a special glossary of terms to facilitate the understanding of the material presented in the book. Although the book looks specifically at the Russian case, it will have international appeal since intellectual property by its very nature has become a transnational phenomenon. Moreover, the international regulatory framework provides for the similarity of legal regulation of IP. The book will find an audience among researchers concerned with the economics and law of intellectual property as well as policymakers and practitioners involved in business IP. *DIFC Courts Practice* Rupert Reed, Tom Montagu-Smith, 2020-05-29 The DIFC Courts Practice is the definitive guide to the practice and procedure of the Courts of the Dubai International Financial Centre (DIFC), which is now firmly established as a leading international commercial court. *Innovation-Based Development of the Mineral Resources Sector: Challenges and Prospects* Vladimir Litvinenko, 2018-10-11 Innovation Based Development of the Mineral Resources Sector: Challenges and Prospects contains the contributions presented at the XI Russian German Raw Materials Conference, Potsdam, Germany, 7-8 November 2018. The Russian German Raw Materials Conference is held within the framework of the Permanent Russian German Forum on the Issues of the Use of Raw Materials, which has as goals to develop new approaches to effectively use energy, mineral and renewable natural resources and to initiate cooperation in the field of sustainability and environmental protection. The contributions cover current trends in the development of raw materials markets and the world economy, the state of the environment and new technologies applied in the sector, effectively responding to modern challenges. The 63 accepted papers are grouped into four main sections: Mineral exploration and mining; Mining services; Processing of raw materials; Other. Innovation Based Development of the Mineral Resources Sector: Challenges and Prospects will be of interest to academics and researchers involved in the mineral resources sector but also to professionals in the public, foreign trade and education fields and representatives of major corporations and professional associations. *Related Party Transactions and Corporate Groups* Ivan Romashchenko, 2020-03-06 In a market environment where economic actors conduct themselves as diligent and

conscientious managers the regulation of related party transactions RPTs would be largely irrelevant Unfortunately the corporate reality is far from an ideal world that is innocent of market abuse and corporate fraud It remains necessary to protect minority shareholders from the wrongdoings of majority shareholders and to protect all shareholders from opportunistic managerial behaviour This timely book the first on the subject since implementation of the European Union's EU's revised Shareholders Rights Directive provides in depth analysis of how and to what extent RPTs are covered by existing legal requirements on capital protection and corporate group regulation highlighting experiences and strategies adopted in Germany Poland and the Netherlands as examples for Eastern European countries and in particular Ukraine Beyond his comparative analysis of the current status the author offers recommendations for more effective handling of RPTs investigating such aspects as the following what constitutes a corporate group and how group issues are regulated in the various legal systems what constitutes a conflict of interest originating in ownership and control and what types of such conflicts occur whether RPTs within corporate groups should receive special treatment relative to transactions outside groups combatting corporate raiding most often carried out through illegal seizure of corporate assets approval and disclosure requirements for RPTs and how information about RPTs is disclosed publicly Drawing on resources including legislation case law scholarship and intensive discussions with practicing lawyers from several jurisdictions the author underscores the imperative of establishing limitations and requirements that oblige a company's officers shareholders and other potential related parties to follow certain rules whenever they wish to enter into an RPT As a contribution to the debate about the convergence between EU corporate law and that of major eastern European states the book has no peers Practitioners in both East and West who advise on compliance with regulations for RPTs or represent stakeholders interests against abusive RPTs will ensure appropriate remedies and protection mechanisms for their clients

Above and Beyond
Louis Brennan, Loizos Heracleous, Alessandra Vecchi, 2018-05-15 The global space sector has always been regarded as a cutting edge field futuristic and at the forefront of innovation In recent years the sector has undergone massive change giving rise to a high technology niche worth over 330 billion in revenues worldwide and growing That process encompassing a greater and more diverse set of actors has been described as the democratization of space Above and Beyond Exploring the Business of Space provides a comprehensive and current overview of the business of space and its distinctive competitive dynamics The book explores the commercialization of space taking the reader on a journey from the era of the Space Race up to the present and beyond Focusing on both state and commercial actors the book provides an exhaustive panoramic view of an area of growing human endeavour and ambition that is both informative and fascinating As the business of space continues to develop and grow at a remarkable pace the book offers a thoughtful and timely analysis of its past present and future scenarios While providing a critical assessment of the business of space this book offers valuable insights to academics policy makers and anyone with a keen interest in the sector as well as useful lessons from emerging commercial and

traditional space actors that have broader applicability to other industries and their managers

Viñuales, 2019 This Handbook brings together the foremost authorities from around the world to provide the first comprehensive account of comparative environmental law It examines in detail the methodological foundations of the discipline as well as the substance of environmental law across countries

The Routledge Companion to Accounting and Risk Margaret Woods, Philip Linsley, 2017-03-27 To date there has been little consideration of the many different ways in which accounting and risk intersect despite organisations being more determined than ever to build resilience against potential risks This comprehensive volume overcomes this gap by providing an overview of the field drawing together current knowledge of risk in a wide range of different accounting contexts Key themes such as corporate governance trust uncertainty and climate change are covered by a global array of contributing scholars These contributions are divided into four areas The broader aspects of risk and risk management Risk in financial reporting Risk in management accounting Risk monitoring The book is supported by a series of illustrative case studies which help to bring together theory and practice With its wealth of examples and analyses this volume provides essential reading for students scholars and practitioners charged with understanding diverse facets of risk in the context of accounting in the business world

The People's Spaceship Amy Paige Kaminski, 2025-07-15 When the Apollo 11 astronauts returned from humanity's first voyage to the moon in 1969 NASA officials advocated for more ambitious missions But with the civil rights movement environmental concerns the Vietnam War and other social crises taking up much of the public's attention they lacked the support to make those ambitions a reality Instead the space agency had to think more modestly and pragmatically crafting a program that could leverage the excitement of Apollo while promising relevance for average Americans The resulting initiative the space shuttle would become the centerpiece of NASA human space flight activity for forty years opening opportunities for the public to engage with and participate in space projects in new ways The People's Spaceship traces how and why NASA painstakingly connected the vehicle to so many segments of society Underscoring the successes and challenges endured in the process Amy Paige Kaminski shares the story of how the space shuttle became an American technological icon

Proportionality and Facts in Constitutional Adjudication Anne Carter, 2022-01-27 This book considers the relationship between proportionality and facts in constitutional adjudication Analysing where facts arise within each of the three stages of the structured proportionality test suitability necessity and balancing it considers the nature of these facts vis vis the facts that arise in the course of ordinary litigation The book's central focus is on how proportionality has been applied by courts in practice and it draws on the comparative experience of four jurisdictions across a range of legal systems The central case study of the book is Australia where the embryonic and contested nature of proportionality means it provides an illuminating study of how facts can inform the framing of constitutional tests The rich proportionality jurisprudence from Germany Canada and South Africa is used to contextualise the approach of the High Court of Australia

and to identify future directions for proportionality in Australia at a time when the doctrine is in its formative stages The book has three broad aims First it considers the role of facts within proportionality reasoning Second it offers procedural insights into fact finding in constitutional litigation Third the book s analysis of the dynamic Australian case law on proportionality means it also serves to clarify the nature and status of proportionality in Australia at a critical moment Since the 2015 decision of *McCloy v New South Wales* where four justices supported the introduction of a structured three part test of proportionality the Court has continued to disagree about the utility of such a test These developments mean that this book with its doctrinal and comparative approach is particularly timely
