Zeff, 2015 This

book provides a historical study of the body that sets International Financial Reporting Standards IFRSs the basis for financial reporting It provides extensive background information to help practitioners policy makers researchers and educators form a deeper understanding of the people the forces and events that have shaped IFRSs *The Future of Post-Human Accounting* Peter Baofu,2014-06-01 Is the invention of accounting so useful that as Charlie Munger once said you have to know accounting It s the language of practical business life It was a very useful thing to deliver to civilization I ve heard it came to civilization through Venice which of course was once the great commercial power in the Mediterranean WOO 2013 This positive view on accounting can be contrasted with an opposing view by Paul Browne that the recent accounting scandals have brought a new level of attention to the accounting profession as gatekeepers and custodians of social interest DUM 2013 Contrary to these opposing views and other ones as will be discussed in the book accounting in relation to addition and subtraction are neither possible or impossible nor desirable or undesirable to the extent that the respective ideologues on different sides would like us to believe Of course this reexamination of different opposing views on accounting does not mean that the study of addition and subtraction is useless or that those fields related to accounting like bookkeeping auditing forensics info management finance philosophy of accounting accounting ethics lean accounting mental accounting environmental audit creative accounting carbon accounting social accounting and so on are unimportant WK 2013 In fact neither of these extreme views is plausible Rather this book offers an alternative better way to understand the future of accounting in regard to the dialectic relationship between addition and subtraction while learning from different approaches in the literature but without favoring any one of them nor integrating them since they are not necessarily compatible with each other More specifically this book offers a new theory that is the double sided theory of accounting to go beyond the existing approaches in a novel way and is organized in four chapters This seminal project will fundamentally change the way that we think about accounting in relation to addition and subtraction from the combined perspectives of the mind nature society and culture with enormous implications for the human future and what I originally called its post human fate The European Neighbourhood Policy - Values and Principles Sara Poli,2016-03-31 The European Neighbourhood Policy is a key part of the foreign policy of the European Union EU through which the EU works with its southern and eastern neighbours with a view to furthering its interests and achieving the closest possible degree of political association and economic integration The policy is underpinned by a set of values and principles that the EU seeks to promote The European Neighbourhood Policy Values and Principles carries out a legal analysis of the values and principles that form the basis for the European Neighbourhood Policy respect for human dignity freedom democracy equality the rule of law and respect for human rights including the rights of minorities plus the principles of conditionality differentiation and coherence This collection explores the instruments that the EU has deployed under the European Neighbourhood Policy to spread its values and to achieve its interests It assesses to what extent the EU has been and is consistent in upholding its values in its relations

with neighbouring countries and examines how these values have been received by these countries The book looks in particular at the nature of EU Russia relations seeking to identify areas of common interest as well as those of actual and potential disagreement

*The Geek Way* Andrew McAfee, 2023-11-14 The Economist's Best Books of 2023 Forbes Top 10 Business Books of 2023 Financial Times Monthly Best Business Books to Read Pick In this handbook for disruptors Eric Schmidt *The Geek Way* reveals a new way to get big things done It will change the way you think about work teams projects and culture and give you the insight and tools you need to harness our human superpowers of learning and cooperation What is being geeky It's being a perennially curious person one who's not afraid to tackle hard problems and embrace unconventional solutions McAfee shows how the geeks have created a new culture based around four norms science ownership speed and openness The geek way seems odd at first It's not deferential to experts fond of planning and process afraid of mistakes or obsessed with winning But it explains everything from why Montessori babies turn out to be creative tinkerers to how newcomers are disrupting industry after industry and still just getting started When all four norms are in place a culture emerges that is freewheeling fast moving egalitarian evidence driven argumentative and autonomous Why does the geek way work so much better McAfee provides an original answer because it taps into humanity's superpower which is our ability to cooperate intensely and learn rapidly By providing insights from the young discipline of cultural evolution McAfee shows that when we come together under the right conditions we quickly figure out how to build reusable spaceships and self correcting organizations Under the wrong conditions though we create bureaucracy chronic delays cultures of silence and the other classic dysfunctions of the Industrial Era Mixing cutting edge science history analysis and stories that show the geek way in action McAfee offers a new way to see the world and empowering tools for seizing the big opportunities of today and tomorrow
