State of Wireless Communications United States. Congress. Senate. Committee on Commerce, Science, and Transportation. Subcommittee on Communications, Technology, and the Internet, 2014 **Invoking the Beyond:** Paul D. Collins, Phillip D. Collins, 2020-11-22 The Gnostic revival of the Enlightenment witnessed the erection of what could be called the Kantian Rift an epistemological barrier between external reality and the mind of the percipient Arbitrarily proclaimed by German philosopher Immanuel Kant this barrier rendered the world as a terra incognita Suddenly the world out there was deemed imperceptible and unknowable In addition to the outer world the cherished metaphysical certainties of antiquity the soul a transcendent order and God swiftly evaporated The way was paved for a new set of modern mythmakers who would populate the world out there with their own surrogates for the Divine Collectively these surrogates could be referred to as the Beyond because they epistemologically and ontologically overwhelm humanity In recent years the Beyond has been invoked by theoreticians literary figures intelligence circles and deep state operatives who share some variant of a technocratic vision for the world In turn these mythmakers have either directly or indirectly served elitist interests that have been working toward the establishment of a global government and the creation of a New Man Their hegemony has been legitimized through the invocation of a wrathful earth goddess a technological Singularity a superweapon and extraterrestrial gods All of these are merely masks for the same counterfeit divinity the Beyond Borderlands Media David E. Toohey, 2012-01-01 Borderlands Media Cinema and Literature as Opposition to the Oppression of Immigrants by David E Toohey explores the ways in which immigrants diaspora communities and their allies use alternative media to reject oppression This in depth analysis of the immigrant experience makes use of a mixture of cinema literary and other artistic media from 1958 onward combined with supporting social science and policy documents Borderlands Media is an essential text for scholars and students engaged in questions of media s effect on the oppression of immigrants and diaspora communities **Saturday Review** , 1975-04
