Life Science Memo November 2014:

A Minor Revolution Adam Benforado, 2023-02-07 A revelatory investigation into how America is failing its children and an urgent manifesto on why helping them is the best way to improve all of our lives from the New York Times bestselling author of *Unfair: The New Science of Criminal Injustice* Compelling an extremely sympathetic and worthy attempt to protect kids Benforado has written a book that reads like a manifesto His ideas are bold to the point and ambitious *The Atlantic* At the dawn of the twentieth century a bright new age for children appeared on the horizon with progress on ending child labor providing public education combating indigence promoting wellness and creating a juvenile justice system But a hundred years on the promised light has not arrived Today more than eleven million American children live in poverty and more than four million lack health insurance Each year we prosecute thousands of kids as adults while our schools crumble We deny young people any political power while we fail to act on the issues that matter most to them racism inequality and climate change Through unforgettable stories law professor Adam Benforado draws a vivid portrait of our neglect We are there when Ariel is placed in an orphanage after her parents are locked away for transporting marijuana when Harold first gazes in disbelief upon the immaculate lawn of an elite private school after a childhood of asphalt play yards when Wylie is hit with a paddle by his public school principal as punishment for taking a moment of silence to protest gun violence When Tyler runs for governor at age seventeen we are also there to witness the extraordinary capacities of young people Our disregard for children's rights is not simply a moral problem it's also an economic and social one The root cause of nearly every major challenge we face from crime to poor health to unemployment can be found in our mistreatment of kids But in that sobering truth is also the key to changing our fate as a nation Drawing on the latest research on the value of early intervention investment and empowerment *A Minor Revolution* makes the urgent case for putting children first in our budgets and policies in how we develop products and enact laws and in our families and communities Childhood is the window of opportunity for all of us

Arab Dawn Bessma Momani, 2015-11-26 In the West news about the Middle East is dominated by an endless stream of reports and commentary about civil war sectarian violence religious extremism and economic stagnation But do they tell the full story For instance who knew that university enrolment in the war torn Palestinian territories exceeds that of Hong Kong or that more than a third of Lebanese entrepreneurs are women Change is on its way in the Middle East argues Bessma Momani and its cause is demographic Today one in five Arabs is between the ages of fifteen and twenty four Young optimistic and increasingly cosmopolitan their generation will shape the region's future Drawing on interviews surveys and other research conducted with young people in fifteen countries across the Arab world Momani describes the passion for entrepreneurship reform and equality among Arab youth With insightful political analysis based on the latest statistics and first hand accounts *Arab Dawn* is an invigorating study of the Arab world and the transformative power of youth

21 Lessons for the 21st Century Yuval Noah Harari, 2018-09-04 1 NEW YORK TIMES

BESTSELLER In *Sapiens* he explored our past In *Homo Deus* he looked to our future Now one of the world's most innovative thinkers explores what it means to be human in an age of bewilderment now updated with new material Fascinating a crucial global conversation about how to take on the problems of the twenty first century Bill Gates The New York Times Book Review A FINANCIAL TIMES BEST BOOK OF THE YEAR How can we protect ourselves from nuclear war or ecological catastrophe What do we do about the epidemic of fake news or the threat of terrorism How should we prepare our children for the future 21 Lessons for the 21st Century is a probing and visionary investigation into today's most urgent issues as we move into the future As technology advances faster than our understanding of it hacking becomes a tactic of war and the world feels more polarized than ever Harari addresses the challenge of navigating life in the face of constant and disorienting change and raises the important questions we need to ask ourselves in order to survive In twenty one accessible chapters that are both provocative and profound Harari untangles political technological social and existential issues and offers advice on how to prepare for a very different future from the world we now live in How can we retain freedom of choice when Big Data is watching us What will the future workforce look like and how should we ready ourselves for it Why is liberal democracy in crisis Harari's unique ability to make sense of where we have come from and where we are going has captured the imaginations of millions of readers Here he invites us to consider values meaning and personal engagement in a world full of noise and uncertainty When we are deluged with irrelevant information clarity is power Presenting complex contemporary challenges clearly and accessibly 21 Lessons for the 21st Century is essential reading

Global Social Policy Kepa Artaraz, Liz Cunningham, Michael Hill, 2016-06-29 Social policy is a subject that helps develop our understanding of the meaning of human wellbeing and of the systems by which wellbeing must be promoted As a discipline social policy has traditionally been blunted by a focus on the nation state however in this age of globalisation the most pressing challenges such as climate change ageing populations and flagging economies serve as proof that even at national level social policy is now more heavily influenced by global factors than ever before In this important and authoritative text Kepa Artaraz and Michael Hill provide a richly detailed contribution to our understanding of the global forces shaping social problems today Part One discusses the different approaches to social policy and explores the process of globalisation looking particularly at its winners and losers and the implications it has for human well being Part Two examines more closely the key actors in global social policy such as the market the state and international organisations and Part Three provides an opportunity to explore some specific key issues of global importance such as employment and migration demographic change and global poverty Adding considerable momentum to the movement away from a reductionist nationally focused study of the discipline Global Social Policy opens up new and stimulating discussions and provides a fresh framework for the study of human well being Using policy examples from areas around the world to provide a truly international scope it is an essential read for students studying at all levels

Governomics Ian McAuley, Miriam Lyons, 2015-05-01 People have good reason to demand

decent public education and a well funded health system to yearn for an economy that doesn't trash the environment or for a smaller gap between rich and poor Almost without exception sound economics is on their side We've grown used to public debates that pit people and the planet against an abstract distorted image of the economy but it doesn't have to be this way Governomics shows that an emaciated state is bad for business and that standing up for government means standing up for a public sector that truly serves the public Everybody knows governments are wasteful incompetent and a drag on the economy But if you're not sure that's true read this book Ross Gittins Sydney Morning Herald and The Age Governomics shows that a market economy can only work when sustained by a strong and active public sector It will inject some much needed economic sanity into conversations on the role of government in Australia John Quiggin Australian Research Council Laureate Fellow University of Queensland

Finks Joel Whitney, 2017-01-03 When news broke that the CIA had colluded with literary magazines to produce cultural propaganda throughout the Cold War a debate began that has never been resolved The story continues to unfold with the reputations of some of America's best loved literary figures including Peter Matthiessen George Plimpton and Richard Wright tarnished as their work for the intelligence agency has come to light Finks is a tale of two CIAs and how they blurred the line between propaganda and literature One CIA created literary magazines that promoted American and European writers and cultural freedom while the other toppled governments using assassination and censorship as political tools Defenders of the cultural CIA argue that it should have been lauded for boosting interest in the arts and freedom of thought but the two CIAs had the same undercover goals and shared many of the same methods deception subterfuge and intimidation Finks demonstrates how the good versus bad CIA is a false divide and that the cultural Cold Warriors again and again used anti Communism as a lever to spy relentlessly on leftists and indeed writers of all political inclinations and thereby pushed U S democracy a little closer to the Soviet model of the surveillance state

Dying of Whiteness Jonathan M. Metz, 2019-03-05 A physician's provocative Boston Globe and timely Ibram X Kendi New York Times Book Review account of how right wing backlash policies have deadly consequences even for the white voters they promise to help In election after election conservative white Americans have embraced politicians who pledge to make their lives great again But as physician Jonathan M Metz shows in Dying of Whiteness the policies that result actually place white Americans at ever greater risk of sickness and death Interviewing a range of everyday Americans Metz examines how racial resentment has fueled progun laws in Missouri resistance to the Affordable Care Act in Tennessee and cuts to schools and social services in Kansas He shows these policies costs increasing deaths by gun suicide falling life expectancies and rising dropout rates Now updated with a new afterword Dying of Whiteness demonstrates how much white America would benefit by emphasizing cooperation rather than chasing false

promises of supremacy Winner of the Robert F Kennedy Book Award **The Ideas Industry** Daniel W. Drezner, 2017-03-01

The public intellectual has a long and storied history Previously the public intellectual was always expected to opine on a broad array of topics from foreign policy to economics Yet in recent years a new kind of thinker has supplanted that archetype the thought leader Equipped with one big idea thought leaders focus their energies on TED talks rather than highbrow periodicals In contrast to public intellectuals thought leaders gain fame as single idea merchants Their ideas are often laudable and highly ambitious but they often work through institutions that are closed to the public and less open to criticism In *The Ideas Industry* Daniel W Drezner explains how this shift happened pointing to the roles of political polarization heightened inequality and eroding trust in authority In contrast to their predecessors today's intellectuals are more likely to enjoy the support of ideologically friendly private funders and be housed in ideologically driven think tanks Increasing inequality is also a key driver of this shift more than ever before contemporary plutocrats fund intellectuals and idea factories that generate arguments that align with their own Finally the erosion of trust in experts has lowered the barriers of entry in the marketplace of ideas But while there are certainly some downsides to the contemporary ideas industry Drezner argues that it is very good at broadcasting ideas widely and reaching large audiences hungry for new thinking Both fair minded and trenchant *The Ideas Industry* reshapes our understanding of contemporary public intellectual life in America and the West **Separated** William D. Lopez, 2019-09-24 William D Lopez details the incredible strain that immigration raids place on Latino communities and the families and friends who must recover from their aftermath 2020 International Latino Book Awards Winner First Place Mariposa Award for Best First Book Nonfiction Honorable Mention Best Political Current Affairs Book On a Thursday in November 2013 Guadalupe Morales waited anxiously with her sister in law and their four small children Every Latino man who drove away from their shared apartment above a small auto repair shop that day had failed to return arrested one by one by ICE agents and local police As the two women discussed what to do next a SWAT team clad in body armor and carrying assault rifles stormed the room As Guadalupe remembers it The soldiers came in the house They knocked down doors They threw gas They had guns We were two women with small children The kids terrified the kids screaming In *Separated* William D Lopez examines the lasting damage done by this daylong act of collaborative immigration enforcement in Washtenaw County Michigan Exploring the chaos of enforcement through the lens of community health Lopez discusses deportation's rippling negative effects on families communities and individuals Focusing on those left behind Lopez reveals their efforts to cope with trauma avoid homelessness handle worsening health and keep their families together as they attempt to deal with a deportation machine that is militarized traumatic implicitly racist and profoundly violent Lopez uses this single home raid to show what immigration law enforcement looks like from the perspective of the people who actually experience it Drawing on in depth interviews with twenty four individuals whose lives were changed that day in 2013 as well as field notes records obtained under the Freedom of Information Act and his own

experience as an activist Lopez combines rigorous research with moving storytelling Putting faces and names to the numbers behind deportation statistics Separated urges readers to move beyond sound bites and consider the human experience of mixed status communities in the small towns that dot the interior of the United States *Global Transformations in the Life Sciences, 1945–1980* Patrick Manning, Mat Savelli, 2018-06-07 The second half of the twentieth century brought extraordinary transformations in knowledge and practice of the life sciences In an era of decolonization mass social welfare policies and the formation of new international institutions such as UNESCO and the WHO monumental advances were made in both theoretical and practical applications of the life sciences including the discovery of life's molecular processes and substantive improvements in global public health and medicine Combining perspectives from the history of science and world history this volume examines the impact of major world historical processes of the postwar period on the evolution of the life sciences Contributors consider the long term evolution of scientific practice research and innovation across a range of fields and subfields in the life sciences and in the context of Cold War anxieties and ambitions Together they examine how the formation of international organizations and global research programs allowed for transnational exchange and cooperation but in a period rife with competition and nationalist interests which influenced dramatic changes in the field as the postcolonial world order unfolded
