

The HUAL D95 is a further development of the popular HUAL D90, but it does everything a better. Both cranes look very similar, but that's where the similarities cease.

The HUAL D95 features a new, low-headroom boom system with a separate telescopic cylinder on each extension, we have done away with all moving on the outer boom and telescopes and reduced the need for a hook attachment to just one - on the outer extension. All this leads to easier handling in confined areas and more larger loads. Consistently reduce friction and give smoother boom action.

The HUAL D95's working geometry has been optimized, resulting in better lifting capacity - in the upper lifting range, capacity has been boosted by over 10%. What's more, the D95 has an amazing close-in lifting height.

The HUAL D95 is a modern general cargo crane in the 10-ton capacity class that offers excellent maneuverability. Choose between crane controls, HUAL's well-known "joystick" version with the new computerized, 360° view remote, advanced "comfort" with HUAL's new 360° and top-down control systems.
