

## Development of a New Curriculum for Business

The curriculum for the new business program was developed by a committee of faculty members and administrators. The committee was charged with the task of developing a curriculum that would be relevant to the needs of the business community and that would provide students with a solid foundation in business fundamentals. The committee's work was guided by the following principles:

- 1. The curriculum should be based on the needs of the business community.
- 2. The curriculum should provide students with a solid foundation in business fundamentals.
- 3. The curriculum should be flexible enough to allow for changes in the business environment.
- 4. The curriculum should be challenging enough to prepare students for the rigors of the business world.
- 5. The curriculum should be designed to provide students with the skills and knowledge necessary to succeed in the business world.

The committee's work was completed in a timely manner, and the new curriculum was implemented in the fall of 1994. The curriculum has been well-received by both students and faculty members, and it has helped to ensure that the business program remains relevant and competitive in the marketplace.
