this unique compilation of original and traditional songs and fingerplays The activities complement preschool curriculums and are designed to bolster young learners language experience reading and math readiness skills as well as develop fine and large motor skills Creative Fingerplays & Action Rhymes Jeff Defty,1992-05-19 Offers an introduction to fingerplay discussing the motor listening attention and counting skills required for different age groups Popular Fingerplay Activities. Step-By-step with Pictures Helen Winter,2020-02-08 Storytelling and activity songs and rhymes have a long tradition and at times they have passed down from generation to generation Our book has more pictures than words in order to methodically introduce each movement and associate it with a spoken word We use two kinds of pictures 1 pictures that tell a story or plot which can be discussed and 2 pictures showing motions that will be repeated throughout the activity songs and rhymes They are detailed so it is not necessary to go back each time In our book you will find 5 popular activity rhythms with very detailed pictures of each gesture You and your kids will be able to learn each finger hand movement step by step bringing enjoyment to both of you Contents I ve got Five Fingers in My Pocket A Sailor Went to Sea Sea Sea Open Shut Them Open Shut Them One Little Fish You might ask why you should buy books with fingerplays when there are so many free videos on YouTube We believe that parents should define the development and entertainment of their children Video content is entertainment not a participatory game It is created by somebody else not the child and grabs the attention of kids against their will This book also provides instruction for the hand movements but gives the child the space for their own sense of creation Hand gestures are not done for the child but by the child Here is a chance for kids to think learn and to try for themselves Also the book suggests more activities compared with simply repeating from an image on a screen Kids can see all gestures step to step try them and feel them This gives them the chance to see themselves from the outside looking in modifying when necessary to get it just right This self analyzing ability is an extremely important skill for their future lives
