Finra Monthly Report December:

SEC Docket United States. Securities and Exchange Commission, 2008 *Federal Register*, 2014 *Investor and Industry Perspectives on Investment Advisers and Broker-dealers* Angela A. Hung, 2008 In theory financial professionals are relatively distinct A broker conducts transactions in securities on behalf of others a dealer buys and sells securities for his or her own accounts and an investment adviser provides advice to others regarding securities Broker dealers and investment advisers are subject to different regulatory structures But trends in the financial services market since the early 1990s have blurred the boundaries between them Regulatory reform requires a clearer understanding of the industry s complexities The U S Securities and Exchange Commission asked RAND to conduct this study to examine the professionals current business practices and whether investors understand differences between and relationships among them The report describes a heterogeneous industry with firms taking many different forms and offering a multitude of services and products and with investors failing to distinguish broker dealers and investment advisers along regulatory lines Despite this investors express high levels of satisfaction with the services they receive from their own financial service providers This satisfaction was much more frequently reported to arise from the personal attention the investor receives than from the actual financial returns arising from this relationship Regulation SHO Orice M. Williams, 2009-12 The SEC adopted Regulation SHO to among other things curb the potential for manipulative naked short selling in equity securities Selling a security short without borrowing the securities needed to settle the trade within the standard 3 day period can result in failures to deliver FTD and can be used to manipulate drive down the price of a security To further address this concern SEC recently issued an order amending Regulation SHO This report 1 provides an overview of Regulation SHO and related SEC actions 2 discusses regulators and market participants views on the effectiveness of the rule and 3 analyzes regulators efforts to enforce the rule Includes recommendations Charts and tables **Broker-Dealer Law and Regulation, 5th Edition** Poser, Fanto, Gross,
