Filmon,2013-04-26 This story is about a greedy king King Gotstohav and the townspeople who lived a very poor life because of his parties and affairs It is also about a boy named Damoan and his girlfriend Chateal who is confined to a wheelchair She takes a journey where she overcomes her confinement and helps the townsfolk by trusting a dragon named Bernie and an abominable snowman named Burricey to overthrow the king Its a journey for every child     *Death by Fire and Ice* Brian O'Connor,2022-10-15 Death by Fire and Ice tells the little known story of the sinking of the steamboat Lexington on Long Island Sound in January 1840 Built in 1835 by Cornelius Vanderbilt the Lexington left Manhattan bound for Stonington Connecticut at four o clock in the afternoon on a bitterly cold day carrying an estimated one hundred forty seven passengers and crew and a cargo of among other things baled cotton After making her way up an ice encrusted East River and into Long Island Sound she caught fire off Eaton s Neck on Long Island s north shore at approximately seven o clock The fire quickly ignited the cotton stowed on board With the crew unable to extinguish the fire the blaze burned through the ship s wheel and tiller ropes rendering the ship unmanageable Soon after the engine died and the blazing ship drifted aimlessly in the Sound away from shore with the prevailing wind and current As the night wore on the temperature plummeted reaching nineteen degrees below zero With no hope of rescue on the dark horizon the forlorn passengers and crew faced a dreadful decision remain on board and perish in the searing flames or jump overboard and succumb within minutes to the Sound s icy waters By three o clock in the morning the grisly ordeal was over for all but one passenger and three members of the crew the only ones who survived The tragedy remains the worst maritime disaster in the history of Long Island Sound Within days the New York City Coroner convened an inquest to determine the cause of the disaster After two weeks of testimony reported daily in the New York City press the inquest jury concluded that the Lexington had been permitted to operate on the Sound at the imminent risk of the lives and property of its passengers and that had the crew acted appropriately the fire could have been extinguished and a large portion if not all of the passengers saved The public s reaction to the verdict was scathing the press charged that the members of the board of directors of the Transportation Company which had purchased the Lexington from Commodore

Vanderbilt in 1839 were guilty of murder and should be indicted Calls were immediately made for Congress to enact legislation to improve passenger safety on steamboats This book explores the ongoing debate in Congress during the nineteenth century over its power to regulate steamboat safety and it examines the balance Congress struck between the need to insulate the nation s shipping industry from ruinous liability for lost cargo while at the same time greatly enhancing passenger safety on the nation s steamboats Fire and Ice: Soot, Solidarity, and Survival on the Roof of the World

Jonathan Mingle,2015-03-24 A thousand years ago in a Himalayan valley the village of Kumik was founded For generations Kumik villagers survived by learning to cultivate their mountain terrain drawing from the waters of the glacier and snows above the village But now the glacier is almost gone and Kumik is dying Why As Fire and Ice reveals the culprit is black carbon the most dangerous pollutant in the world and the least understood Black carbon absorbs more heat per unit of mass in the atmosphere than greenhouse gases and contributes as much to melting the glaciers of the Himalaya as carbon dioxide It s also a major component of the household air pollution that causes 4.3 million deaths each year from respiratory and cardiovascular illnesses and 3 million more from outdoor pollutants such as industrial exhaust Black carbon threatens to overwhelm Kumik unless the village can change the way it cooks heats farms and lives In Fire and Ice Jonathan Mingle weaves a dramatic narrative of one village s inspiring efforts to adapt to a rapidly changing environment and a scientific detective tale about the impact of fire on every nation Ranging from the Tibetan Plateau to New York and Washington D C from Delhi and Kathmandu and China to northern California Fire and Ice is a heroic exploration of our race to change the fate of our planet By Fire and Ice David A. Koplow,2021-01-26 This book first published in 1997 examines the forced merger between national security interests and environmental policy makers arising from the Chemical Weapons Convention and its requirement to safely dismantle the world s chemical weapons stockpiles The two groups had to find a way to intersect and work together and this book analyses the problems and politics involved
