Gillham,2002-03 One of the great debates of our time concerns the predominant form of land use in America today the all too
familiar pattern of commercial and residential development known as sprawl But what do we really know about sprawl Do we
know what it is Where did it come from Is it really so bad If so what are the alternatives Can anything be done to make it
better The Limitless City offers an accessible examination of those and related questions Oliver Gillham an architect and
planner with more than twenty five years of experience in the field considers the history and development of sprawl and
examines current debates about the issue The book offers a comprehensive definition of sprawl in America traces the roots of
sprawl and considers the factors that led to its preeminence as an urban and suburban form reviews both its negative
impacts loss of open space increased pollution gridlock as well as its positive aspects economic development personal
freedom privacy considers responses to sprawl including smart growth urban growth boundaries regional planning and the
New Urbanism looks at what can be done to improve and counterbalance sprawl The author argues that whether we like it or
not sprawl is here to stay and only by understanding where it came from and why it developed will we be able to successfully
address the problems it has created and is likely to create in the future The Limitless City is the first book to provide a
realistic look at sprawl with a frank recognition of its status as the predominant urban form in America now and into the near
future Rather than railing against it Gillham charts its probable future course while describing critical efforts that can be
undertaken to improve the future of sprawl and our existing urban core areas *The Use of Small Buses in Transit Service*
P. Brendon Hemily,National Research Council (U.S.). Transportation Research Board,Transit Cooperative Research

scheduled service or those used in innovative more flexible operations such as route deviation or demand response service
