Papers Relating to Foreign Affairs United States. Department of State, 1866 *The Foreign Policy of Serbia (1844-1867): Ilija Garašanin's Načertanije* Dušan T. Bataković, 2014 Contemporary analysis of Serbia's foreign policy in the middle of the nineteenth century has remained in a deep shadow of the Načertanije a document conceived in 1844 in Belgrade as a result of collaboration between Serbia's interior minister Ilija Garašanin and F A Zach the representative of the Polish political emigration from Paris led by Prince A Czartoryski in the capital of the autonomous Principality of Serbia Prince Czartoryski author of Councils for Serbia's foreign policy in 1843 considered Serbia the sole semi independent state among Slavs in South Eastern Europe a nucleus of a wider Serbia led South Slav state that might endorse an anti Russian and anti Austrian policy as a support for his wider plans regarding the restoration of independent Poland The over ambitious pan Slav project of F Zach Serbia's Slavic Policy was eventually modified by Garašanin to a more realistic and attainable plan in accordance with Serbia's modest demographic and military potential limited international experience and still humble administrative capacities Planning the unification of the predominantly Serb inhabited lands under Ottoman rule was appropriately adapted to the geopolitical realities of 1844 The foreign policy of Serbia under Garašanin during the rule of the pro Austrian Prince Alexander Karadjordjevi and Garašanin's premiership under Russophile Prince Michael Obrenovi was balancing between various political options that were dominating Europe and the Balkans between the 1848 Revolution and the Crimean War and the first Balkan Alliance Garašanin was continuously prudent and bold in pursuing realistic political ambitions regarding large scale anti Ottoman activities by building a network of confidants and agents throughout Turkey in Europe that was to foment a joint insurrection against the Ottoman rule During its last phase Garašanin's foreign policy gradually evolved into the direction of closer Yugoslav and Balkan cooperation Back cover **Lobbying in EU Foreign Policy-making** Benedetta Voltolini, 2015-09-16 This book examines lobbying in EU foreign policy making and the activities of non state actors NSAs focusing on EU foreign policy on the Israeli Palestinian conflict It sheds light on the interactions between the EU and NSAs as well as the ways in which NSAs attempt to shape EU foreign policies By analysing issues that have not yet received systematic attention in the literature this book offers new insights into lobbying in EU foreign policy EU relations surrounding the conflict and the EU's broader role in the peace process The book will be of key interest to scholars and students of political science international relations EU politics EU foreign policy making Middle East studies and the Israeli Palestinian conflict **Foreign Relations of the United States** United States. Department of State, 1918. Coming of Age Helga Haftendorn, 2006-03-30. In this authoritative book the only work to cover the full sweep of German foreign policy since the end of World War II, noted scholar Helga Haftendorn explores Germany's remarkable recovery from wartime defeat and destruction. Offspring of the Cold War, the Federal Republic of Germany and the German Democratic Republic entered the international arena in 1949 under three crippling constraints: they were held accountable for the crimes of the Third Reich, they were fully dependent on the occupation powers, and their international room for maneuver was limited by an East-West conflict that placed Bonn and East Berlin on opposite sides of the Iron Curtain. Tracing the FRG's strategy of multilateralism, Haftendorn convincingly demonstrates how these liabilities transformed into opportunities as Germany found a security guarantee in NATO membership and economic and political rewards in the system of European integration. The author's overview of past half-century shows a high degree of continuity and consistency in German foreign policy despite the tumultuous events of the era. However, Haftendorn argues that Germany's traditional policy of self-restraint was increasingly counterbalanced by a more assertive stance after reunification and the rise of a post-war generation to power. Although the country's leaders continued to value international institutions, the benefits were increasingly weighed against Germany's enlightened self-interest. Scholars and students of contemporary Germany, Europe, and East-West relations will find this nuanced and knowledgeable study invaluable. Democracy Promotion as Foreign Policy Cathy Elliott, 2017-11-27. This book looks at democracy promotion as a form of foreign policy. Elliott asks why democracy was seen to be the answer to the 7/7 bombings in London and why it should be promoted not in Britain but in Pakistan. The book provides a detailed answer to these questions, examining the logic and the modes of thinking that made such a response possible through analysis of the stories we tell about ourselves, stories about

time history development civilisation and the ineluctable spread of democracy Elliott argues that these narratives have become a key tool in enabling practices that differentiate selves from others friends from enemies the domestic from the foreign civilisation from the barbarian They operate with a particular conception of time and constitute a British democratic national identity by positing an other that is barbaric alien despotic violent and backward Such understandings are useful in wake of disaster because they leave us with something to do danger can be managed by bringing certain people and places up to date However this book shows that there are other stories to be told and that it is possible to read stories about history against the grain and author alternative less oppressive versions Providing a genealogy drawing on material from colonial and postcolonial Britain and Pakistan including legislation political discourse popular culture and government projects this book will be of interest to scholars and students focusing on democracy promotion genealogy critical border studies poststructural IR postcolonial politics discourse analysis identity subjectivity and the war on terror **Hearings, Reports**

and Prints of the Senate Committee on Foreign Relations United States. Congress. Senate. Committee on Foreign Relations,1979 **The Future of Foreign Policy Is Feminist** Kristina Lunz,2023-09-05 As old white men continue to dominate the national and international stages the needs of women and minorities are constantly ignored International politics are shaped by a ruthless competition for advantage and the world is full of conflicts crises and wars Things have to change Activist and political scientist Kristina Lunz is on a mission to do just that In her work from New York to Bogot from Germany to Myanmar she became aware of a stubborn unwillingness to think past the status quo and to embrace new innovative voices from marginalized groups She also saw that the tradition of feminist activism combined brilliantly with diplomacy both require grim tenacity boundless creativity and a solutions oriented approach In her attempt to reconfigure the field of foreign policy she aims to set in motion a paradigm shift replacing grandiose displays of military might with feminism solidarity and climate justice A feminist foreign policy requires the promotion of equal rights in the handling of foreign affairs and security matters worldwide with a particular focus on marginalized and politically underrepresented groups Ultimately this is nothing less than an inclusive visionary policy for the twenty first century one where security and prosperity health and climate justice are possible in other words where peace is possible for everyone everywhere

Strategy and Strategic Discourse in Turkish Foreign Policy Hasan Yükselen,2020-03-03 This book provides a critical realist analysis of Turkish foreign policy TFP covering various periods from the Turkish National Struggle to the contemporary Justice and Development Party Government It discusses TFP within the critical realist framework employing the concept of differences in continuity to demonstrate how agency and structure interacted and how some discourses arose and others failed in the history of the Turkish Republic The book also applies the concepts of strategy and strategic discourse to reveal how real world strategic preferences correspond to the narration Lastly the author argues that the underlying structural forces have endured despite Turkey s persistence in enhancing the agency s role ultimately leading to
