Roizen, Mehmet Oz, 2007-10-30 The body is the most fascinating machine ever created and nobody talks about it in ways that are as illuminating and compelling as Dr Michael Roizen and Dr Mehmet Oz Most people think of the aging of our bodies the same way we think of the aging of our cars the older we get the more inevitable it is that we re going to break down Most of us believe that at age 40 or so we begin the slow and steady decline of our minds our eyes our ears our joints our arteries our libido and every other system that affects the quality of life and how long we live it But according to Dr Roizen and Dr Oz that s a mistake Aging isn t a decline in our systems It s actually very purposeful The very systems and biological processes that age us are designed to help us when we re a little bit younger So what s our role as part of the aging population To learn how those systems work so we can reprogram them to work the way they did when we were younger Your goal should be die young at any age That means you live a high quality of life with everything from working joints to working genitals until the day you die At the core of this landmark book are the Major Agers 14 biological processes that control your rate of aging Some you ve heard of some you haven t and some you never knew contributed to the aging process Some speed decline others inhibit your repair mechanisms These Major Agers are everything from short telomeres and inefficient mitochondria to stem cells and wacky hormones The doctors explain the principles of longevity and many of the causes of aging and how to fight the effects The climax of the book is a 14 day plan to help you along your path to staying young The doctors want you to be able to integrate important processes into your daily life in order to make staying young routine but first you ll need to measure your real age and health right now Staying young encompasses your emotions and mental health as well as your exercise habits eating habits personal hygiene and genes among other things Wouldn t you like to know how to prevent your body from aging badly The original YOU book showed how bodies work in general and YOU On a Diet explained how bodies lose weight and stay fit Now in YOU Staying Young Drs Michael Roizen and Mehmet Oz

illuminate the mysterious mechanisms with a lively metaphor the modern city What differentiates a vibrant and thriving city that ages gracefully from one that is worn down and rusted out Despite genetic differences which are like the geography upon which the city is built cities age differently because of the way residents treat their education system stem cells power plants mitochondria electrical grids brains transportation routes blood vessels and landfills fat You as mayor resident and street cleaner have the power to balance your biological budget to ensure a life that's both long and strong Thankfully just as cities can invest in renewal and improving their repair processes so can you YOU Staying Young is filled with signature YOU Tools including YOU Tests YOU Tips and visual and verbal metaphors to bring the science to life **Cooking for Dykes**

collection is complete without this lively insight into the radical changes in daily life from the Gilded Age to World War II as reflected in foodways From the Gilded Age to the end of World War II what where when and how Americans ate all changed radically Migration to urban areas took people away from their personal connection to food sources Immigration primarily from Europe and political influence of the Caribbean Latin America and the Pacific brought us new ingredients cuisines and foodways Technological breakthroughs engendered the widespread availability of refrigeration as well as faster cooking times The invention of the automobile augured the introduction of road food and the growth of commercial transportation meant that a wider assortment of foods was available year round Major food crises occurred during the Depression and two world wars Food in the United States 1890 1945 documents these changes taking students and general readers through the period to explain what our foodways say about our society This intriguing narrative is enlivened with numerous period anecdotes that bring America history alive through food history **Let There Be Light** Joe Giovanelli,2010-10 This

inspirational memoir will provide hope to many of us who feel at times discouraged stuck in what we think is a helpless situation bullied on the playgrounds of life or shunned for being different Joe Giovanelli was born blind at a time when blind children were often warehoused in special schools and then shunted off to work in sheltered workshops But not for Joe His school teacher mom pushed for a good education and his dad encouraged Joe s mechanical aptitudes Joe became a trailblazer in education of the blind graduating cum laude from Syracuse University With an upbeat love for his work he became a leader in the field of audio and recording He was awakened in mid life by how God had and continues to guide him throughout his life Perseverance enriched by his personal faith enabled him to meet obstacles and move beyond where many would give up Always ready to entertain others with his musicianship and also wit Joe endears himself to those privileged to know him And this delightfully told memoir gives us a new understanding of what it s like to live day by day blind in a sighted world And Joe says I never felt I needed sight The memoir of Joe Giovanelli is a beautifully crafted story and one of the best

told memoirs I have seen in my over 40 years in publishing It pulls you the reader in just as if you were sitting chatting with Joe getting to know well the evolving personality and inspiring life story of this remarkable man Stephen Pfeiderer retired publishing executive
