Handbook of Employee Selection James L. Farr, Nancy T. Tippins, 2017-03-27 This second edition of the Handbook of Employee Selection has been revised and updated throughout to reflect current thinking on the state of science and practice in employee selection. In this volume a diverse group of recognized scholars inside and outside the United States balance theory research and practice often taking a global perspective. Divided into eight parts, chapters cover issues associated with measurement such as validity and reliability as well as practical concerns around the development of appropriate selection procedures and implementation of selection programs. Several chapters discuss the measurement of various constructs commonly used as predictors and other chapters confront criterion measures that are used in test validation. Additional sections include chapters that focus on ethical and legal concerns and testing for certain types of jobs e.g. blue collar jobs. The second edition features a new section on technology and employee selection. The Handbook of Employee Selection Second Edition provides an indispensable reference for scholars, researchers, graduate students and professionals in industrial and organizational psychology, human resource management and related fields.

The Wiley Handbook of School Choice Robert A. Fox, Nina K. Buchanan, 2017-03-14 The Wiley Handbook of School Choice presents a comprehensive collection of original essays addressing the wide range of alternatives to traditional public schools available in contemporary US society. A comprehensive collection of the latest research findings on school choices in the US including charter schools, magnet schools, school vouchers, home schooling, private schools and virtual schools. Viewpoints of both advocates and opponents of each school choice provide balanced examinations and opinions. Perspectives drawn from both established researchers and practicing professionals in the US and abroad and from across the educational spectrum gives a holistic outlook. Includes thorough coverage of the history of traditional education in the US, its current state and predictions for the future of each alternative school choice.

Chinese for Specific and Professional Purposes Hongyin Tao, Howard Hao-Jan Chen, 2019-08-20 This book, likely the first of its kind in the English language, explores Chinese for specific and professional purposes (CSP) in terms of theorizing and developing practical applications for language teaching and learning. While research in language for specific purposes is thriving for languages such as English, there has been comparatively little such research conducted for Chinese. This volume attempts to fill the gap by bringing together practitioners from a broad international scholarly community who share common interests yet diverse orientations. Seventeen papers are included and address four broad thematic categories: 1. academic Chinese, 2. business Chinese, 3. Chinese for medicine and health care, and 4. Chinese for other broadly defined services and industries (diplomacy, tourism, wine tasting, etc.). Representing the state of the art in CSP research, the book offers an indispensable guide for anyone

interested in theoretical and practical issues in this area of applied Chinese language studies

by step solutions to provide 100% concept clarity to the students *Refugee Background Students Transitioning Into Higher Education* Loshini Naidoo, Jane Wilkinson, Misty Adoniou, Kiprono Langat, 2018-05-18 This book is one of the first of its kind to examine the aspirations of refugee background students and accompanies them as they journey through the on shore stage of settlement enrolment and participation in the Australian education system It begins with students experiences of on shore settlement followed by the move into schooling and finally the subsequent transition into Australian higher education Transitioning into higher education is a challenge for many students particularly for those from under represented equity groups For refugee background students navigating in through and out of higher education can be particularly complex and challenging Drawing on rich case studies from longitudinal research into refugee youth and the academic and professional staff in schools and universities who support them the book provides powerful and compelling narratives and insights into this journey It untangles the complex nature of transition for students of refugee background in higher education locating it within broader social trends of increasing social and cultural diversity as well as government practices and policies concerning the educational resettlement of refugees *Human Rights Literacies* Cornelia Roux, Anne Becker, 2018-12-29

This book adds impetus to the nexus between human rights human rights education and material reality The dissonance between these aspects is of growing concern for most human rights educators in various social contexts The first part of the book opens up new discourses and presents new ontologies and epistemologies from scholars in human rights human rights education and human rights literacies to critique and or justify the understandings of human rights complex applications Today s rapidly changing social contexts and new languages attempting to understand ongoing dehumanization and violations put enormous pressure on higher education educators individuals working in social sciences policy makers and scholars engaged in curricula making The second part demonstrates how global interactions between citizens from different countries with diverse understandings of human rights from developed and developing democracies question the link between human rights and it s in ex clusive Western philosophies Continuing inhumane actions around the globe reflect the failure of human rights law and human rights education in schools higher education and society at large The book shows that human rights education is no longer a blueprint for understanding human rights and its universal or contextual values presented for multicomplexial societies The final chapters argue for new ontologies and epistemologies of human rights human rights education and human rights literacies to open up difficult conversations and to give space to dissonant and disruptive discourses The many opportunities for human rights education and literacies lies in these conversations

Innovation District Planning Tan Yigitcanlar, Surabhi

Pancholi, Niusha Esmaeilpoorarabi, Rosemary Adu-McVie, 2024-03-25 This book aims to fill the knowledge gap on how to plan, develop and manage innovation districts that are competitive in terms of both productivity and quality of living, justifying the massive investment put into place and at the same time doing both in a delicate and harmonious way. There is a need for smart urban land use that is wired with both hard infrastructures (e.g. telecommunication and transport) and soft infrastructures (e.g. diversity and tolerance). The reader learns this knowledge through conceptual expansions for key insights, frameworks for potential and performance assessment and best practices for global innovation districts. The authors begin innovation district planning with the role and effectiveness of planning, branding in the development of innovation districts. The next key topic of place making is recognised as a key strategy for supporting knowledge generation and innovation activities in the contemporary innovation districts. Another important topic is place quality where the reader learns to identify and classify indicators of place quality by studying global innovation districts best practices. The reader also expands their understanding on the classification of innovation districts based on their key characteristics through a methodological approach. The book concludes with district smartness studied through the socio-cultural role played by anchor universities in facilitating place making in innovation districts. Smart campuses enabled by digital transformation opportunities in higher education are seen as a miniature replica of smart cities and serve as living labs for smart technology. The book serves as a repository for scholars, researchers, postgraduate and undergraduate students as it communicates the complex innovation district phenomenon in an easy-to-digest form by providing both the big picture view and specifics of each component of that view.
