The Golden Ticket Irena Smith, 2025-07-30 What do we as parents really mean when we say we want the best for our children Irena Smith tackles this question from a unique vantage point as a former Stanford admissions officer a private Palo Alto college counselor and a mother of three children who struggle to find their place in the long shadow of Stanford University Written as a series of responses to actual college essay prompts this witty raw memoir takes the reader from the smoke filled lobby of the Hebrew Aid Society in Rome where Irena and her parents await asylum with other Soviet refugees in 1977 to the overpriced house she and her husband buy in Palo Alto in

1999 to the hushed inner sanctum of the Stanford admissions office Irena grows a successful college counseling practice but struggles to reconcile the lofty aspirations of tightly wound competitive high school seniors and their anxious parents with her own attempts to keep her family from unraveling as one by one her children are diagnosed with autism learning differences depression and anxiety And although she doesn't initially understand her children or how to help them she will not stop stumbling and learning until she figures it out The Golden Ticket opens a much needed conversation about extreme parenting the weight of generational expectations and what happens when Gen X dreams meet unexpected realities It's a sharp eyed depiction of hard won triumphs and of the messy challenging parts of parenting you won't see on Facebook or Instagram Above all it's an invitation to embrace a broader more generous definition of success

Normans and Early Plantagenets Timothy Venning, 2014-02-26 Continuing his exploration of the pathways of British history Timothy Venning examines the turning points of the period from the death of William I to the reign of Edward III and a little beyond As always he discusses the crucial junctions at which History could easily have taken a different turn and analyses the possible and likely results While necessarily speculative to a degree the scenarios are all highly plausible and rooted in a firm understanding of actually events and their context In so doing Timothy Venning gives the reader a clearer understanding of the factors at play and why things happened the way they did as well as a tantalizing view of what might so easily have been different Key scenarios discussed in this volume include The civil war of 1136-53 how either Stephen or Matilda might have won quick and decisive victory and the likely consequences What if Richard the Lionheart had not gone on Crusade leaving the inept John to rule in his place Could the English Angevin Empire in France have been saved What if that fatal crossbow bolt had missed Richard in 1199 sparing him an early death What if Edward I's riding accident in 1294 had been fatal leaving Edward II to succeed at 10 years of age A whole chapter deals with scenarios surrounding the Scottish kings What if Robert the Bruce had been killed in 1306 As featured in The Argus Brighton Sussex Express and New Milton Advertiser
