supporting efficient and informed decisions.

In the Critical Care Unit, efficiency is paramount. You can't afford to spend time piecing together incomplete information or tracking down vital patient data in multiple hard-to-reach systems. Your technology should support you by combining monitoring data streams with access to cardiac records and other relevant data to help you make the best care decisions.

The CARESCAPE™ Monitor B650 makes it fast and easy to access the vital patient details you need, right when and where you need them. In addition, the CARESCAPE Monitor B650 collects data from multiple systems and delivers it in an intuitive, integrated display that results in fewer repetitive tasks, faster access and quicker analysis. As a result, caregivers are armed with the decision support information required to deliver appropriate, expedient patient care.
