Assembly by Design Olga Touloumi, 2024-09-10 How the United Nations headquarters became the architectural instrument and broadcast medium of global diplomacy For almost seven years after World War II a small group of architects took on an exciting task to imagine the spaces of global governance for a new political organization called the United Nations UN To create the iconic headquarters of the UN in New York City these architects experimented with room layouts media technologies and design in tribunal courtrooms assembly halls and council chambers The result was the creation of a new type of public space the global interior Assembly by Design shows how this space leveraged media to help the UN communicate with the world With its media infrastructure symbols acoustic design and architecture the global interior defined political assembly both inside and outside the UN headquarters serving as the architectural medium to organize multilateral encounters of international publics around the globe Demonstrating how aesthetics have long held sway over political work Olga Touloumi posits that the building framed diplomacy on the ground amid a changing political landscape that brought the United States to the forefront of international politics destabilizing old and establishing new geopolitical alliances Uncovering previously closed institutional and family archives Assembly by Design offers new information about the political and aesthetic decisions that turned the UN headquarters into a communications organism It looks back at a moment of hope when politicians architects and diplomats believing that assembly was a matter of design worked together to deliver platforms for global democracy and governance

Census Bureau Methodological Research United States. Bureau of the Census, 1975 **Antisemitism and Islamophobia in Europe** James Renton, Ben Gidley, 2017-04-05 This is the first book to examine the relationship between European antisemitism and Islamophobia from the Crusades until the twenty first century

in the principal flashpoints of the two racisms With case studies ranging from the Balkans to the UK the contributors take the debate away from politicised polemics about whether or not Muslims are the new Jews Much previous scholarship and public discussion has focused on comparing European ideas about Jews and Judaism in the past with contemporary attitudes towards Muslims and Islam This volume rejects this approach Instead it interrogates how the dynamic relationship between antisemitism and Islamophobia has evolved over time and space The result is the uncovering of a previously unknown story in which European ideas about Jews and Muslims were indeed connected but were also ripped apart Religion empire nation building and war all played their part in the complex evolution of this relationship As well as a study of prejudice this book also opens up a new area of inquiry how Muslims Jews and others have responded to these historically connected racisms The volume brings together leading scholars in the emerging field of antisemitism Islamophobia studies who work in a diverse range of disciplines anthropology history sociology critical theory and literature Together they help us to understand a Europe in which Jews and Arabs were once called Semites and today are widely thought to be on two different sides of the War on Terror

Birkbeck Joanna Bourke, 2022-08-11 Birkbeck traces the 200 year history of Birkbeck University of London from its founding at a time when social elites deplored the notion of educated working people to the present day Joanna Bourke writes a lively history of the institution and how it contributed to the shaping of modern British higher education Two hundred years ago Birkbeck was founded as the London Mechanics Institution LMI When it was established in 1823 one third of all men and half of all women were unable to read or write British elites were vehemently hostile to educating working people The country was in political turmoil and it was feared that education would destroy society This was the context in which the LMI was established From its foundation it was unique Birkbeck traces its history from 1823 to the present with Joanna Bourke using the history of Birkbeck to reflect on life and culture in London over the past two centuries What does it mean to be educated Why have Birkbeck's students been prepared to give up so much in order to study for a higher degree How does education help us become fully human and self fulfilled by learning how to use all our faculties knowledge imagination sympathy The story of Birkbeck contains some blood oceans of scholarly sweat and not a few tears But it is also a story of laughter intellectual excitement scholarly eccentricity collective as well as personal ambition and most of all the quirky passions and personalities that make up the Birkbeck community It is a story of a unique university but also of higher education of Britain It shows how knowledge can empower people to better themselves and improve the world
