Geographers T. W. Freeman,2015-12-14 Geographers is an annual collection of studies on individuals who have made major contributions to the development of geography and geographical thought Subjects are drawn from all periods and from all parts of the world and include famous names as well as those less well known including explorers independent thinkers and scholars Each paper describes the geographer s education life and work and discusses their influence and spread of academic ideas Each study includes a select bibliography and a brief chronology The work includes a general index and a cumulative index of geographers listed in volumes published to date Published under the auspices of the International Geographical Union *Psychogeography* Merlin Coverley,2010-10-01 The term psychogeography is used to illustrate a bewildering array of ideas from ley lines and the occult to urban walking and political radicalism where does it come from and what exactly does it mean Psychogeography is the point where psychology and geography meet in assessing the emotional and behavioral impact of urban space The relationship between a city and its inhabitants is measured firstly through an imaginative and literary response secondly on foot through walking the city This creates a tradition of the writer as walker and has both a literary and a political component This guide examines the origins of psychogeography in the Situationist Movement of the 1950s exploring the theoretical background and its political applications as well as the work of early practitioners such as Guy Debord and Raoul Vaneigem Elsewhere psychogeographic ideas continue to find retrospective validation in much earlier traditions from the visionary writing of William Blake and Thomas De Quincey to the rise of the fl neur on the streets of 19th century Paris and on through the avant garde experimentation of the Surrealists These precursors are discussed here alongside their modern counterparts for today these ideas hold greater currency than ever through the popularity of writers and filmmakers such as Iain Sinclair and Peter Ackroyd Stewart Home and Patrick Keiller This guide offers both an explanation and definition of the terms involved an analysis of the key figures and their work and practical information on psychogeographical groups and organizations **Catalogue of the New York Free Circulating Library** New York (N.Y.). Free Circulating Library. George Bruce Branch,1890 *Capital Punishment* C. Cliff,2003 The issue of capital punishment is a continually debated issue because it calls into question the values and

direction of society How is a civilisation supposed to handle lawbreakers Are some crimes so heinous and some people so dangerous that the death penalty is the only appropriate response The United States Constitution prohibits cruel and unusual punishment but opinions on whether that includes capital punishment are vehement on both sides Many states have some form of death penalty and public opinion seems to indicate support of it in principle However many firestorms have erupted recently over the application of the penalty including the topics of its use on minors and those with mental disabilities There are also questions raised about how much of a factor race plays in a capital sentence Internationally several countries have foresworn the death penalty with certain countries in Europe and the Americas refusing to extradite criminal suspects including suspected terrorists to the US if capital punishment is a possible sentence With such politically flammable and ethically challenging issues hanging over it capital punishment is a vitally important issue to understand To help facilitate that study this book assembles a carefully selected and substantial listing of literature focussing on the death penalty Anyone researching this area of criminal justice will find this book an important tool as it offers easy access to the most relevant works about capital punishment Following the bibliography further access is provided with author title and subject indexes
