**UNEP Year Book 2010** Unep,2010-04-22 The UNEP Year Book 2010 is essential informative and authoritative reading and reports on new environmental science plus recent developments in our changing environment It looks at progress in environmental governance the effects of continuing degradation and loss of the world s ecosystems impacts of climate change how harmful substances and hazardous waste effect human health and the environment environmentally related disasters and conflicts and unsustainable use of resources Water is a recurrent theme in this seventh edition Each chapter considers water related environmental changes together with a number of challenges and opportunitites *Betrayed* S. Kaplan,2013-11-26 Betrayed takes a new approach to the subject of global poverty one that doesn t blame the West but also doesn t rely on the West for solutions Betrayed puts the poor themselves at center stage and shows how their entrepreneurial energies are shackled by political and social discrimination When these shackles are removed as is happening in places such as China and Vietnam the poor are able to seize opportunities and drive wealth creation Combining the latest research into poverty and state building with the author s personal observations drawn from years running businesses in the developing world Betrayed explains how leaders in the developing world can build more inclusive societies and more equitable governments thereby creating dynamic national economies and giving the poor the opportunity to accumulate the means and skills to control their own destinies This refreshing new approach will appeal to business people who are fed up with reading critiques of global poverty that see capitalism as the problem not the solution people in both the global North and South who want to see attention focused not on Western aid but on what developing countries and their citizens can do to help themselves scholars and practitioners in the development field who are looking for new practicable ideas and general readers who want accessible and engaging accounts of ordinary people struggling to overcome poverty **Origination** Andy Pike,2015-03-24 Origination The Geographies of Brands and Branding offers innovative theoretical and conceptual frameworks relating to the ways that actors create meaning and value in commodity brands and branding through processes of geographical association Provides innovative conceptualization and theorization to facilitate an understanding of the geographical dimensions of brands and branding Challenges current interpretations of brands as vehicles of homogenization in globalization Establishes the theoretical and conceptual foundations of a more geographically sensitive approach through rigorous empirical examination of the under researched geographical differentiation of commodity brands and branding Presents innovative new research and analysis of the socio spatial biographies of the Newcastle Brown Ale Burberry and Apple brands Forges strong new connections between political and cultural economy approaches within geography Provides a distinctive and incisive conceptual and theoretical framework capable of engaging other branded commodities and their branding in other times and places *Russia's Frozen Frontier* Alan Wood,2011-05-15 Alan Wood s ambitious work is the first to address the whole span both chronologically and thematically of the development of Siberia and its role in both the

Russian and the global context With a scope that reaches from Muscovy's conquest of Siberia in the 16th and 17th centuries to modern times it explores the effects of colonial exploitation the Revolutions of 1917 and developments during the Soviet period Russia's Frozen Frontier is also the first book to detail the history of Siberia from the view of Siberians themselves both Russian and native rather than seen through the lens of Moscow or St Petersburg Healthy, Resilient, and Sustainable Communities After Disasters Institute of Medicine, Board on Health Sciences Policy, Committee on Post-Disaster Recovery of a Community's Public Health, Medical, and Social Services, 2015-09-10 In the devastation that follows a major disaster there is a need for multiple sectors to unite and devote new resources to support the rebuilding of infrastructure the provision of health and social services the restoration of care delivery systems and other critical recovery needs In some cases billions of dollars from public private and charitable sources are invested to help communities recover National rhetoric often characterizes these efforts as a return to normal But for many American communities pre disaster conditions are far from optimal Large segments of the U S population suffer from preventable health problems experience inequitable access to services and rely on overburdened health systems A return to pre event conditions in such cases may be short sighted given the high costs both economic and social of poor health Instead it is important to understand that the disaster recovery process offers a series of unique and valuable opportunities to improve on the status quo Capitalizing on these opportunities can advance the long term health resilience and sustainability of communities thereby better preparing them for future challenges Healthy Resilient and Sustainable Communities After Disasters identifies and recommends recovery practices and novel programs most likely to impact overall community public health and contribute to resiliency for future incidents This book makes the case that disaster recovery should be guided by a healthy community vision where health considerations are integrated into all aspects of recovery planning before and after a disaster and funding streams are leveraged in a coordinated manner and applied to health improvement priorities in order to meet human recovery needs and create healthy built and natural environments The conceptual framework presented in Healthy Resilient and Sustainable Communities After Disasters lays the groundwork to achieve this goal and provides operational guidance for multiple sectors involved in community planning and disaster recovery Healthy Resilient and Sustainable Communities After Disasters calls for actions at multiple levels to facilitate recovery strategies that optimize community health With a shared healthy community vision strategic planning that prioritizes health and coordinated implementation disaster recovery can result in communities that are healthier more livable places for current and future generations to grow and thrive communities that are better prepared for future adversities *The Disclosure of Climate Data from the Climatic Research Unit at the University of East Anglia* Great Britain. Parliament. House of Commons. Select Committee on Science and Technology, 2010 disclosure of climate data from the Climatic Research Unit at the University of East Anglia Eighth report of session 2009 10 Vol 2 Oral and written Evidence Islam and the Liberal State Stephen H. Jones, 2020-11-26 National identity and liberal

democracy are recurrent themes in debates about Muslim minorities in the West Britain is no exception with politicians responding to claims about Muslims lack of integration by mandating the promotion of fundamental British values including democracy and individual liberty This book engages with both these themes addressing the lack of understanding about the character of British Islam and its relationship to the liberal state It charts a gradual but decisive shift in British institutions concerned with Islamic education Islamic law and Muslim representation since Muslims settled in the UK in large numbers in the 1950s Based on empirical research including interviews undertaken over a ten year period with Muslims and analysis of public events organized by Islamic institutions Stephen Jones challenges claims about the isolation of British Islamic organizations and shows that they have decisively shaped themselves around British public and institutional norms He argues that this amounts to the building of a distinctive British Islam Using this narrative the book makes the case for a variety of liberalism that is open to the expression of religious arguments in public and to associations between religious groups and the state It also offers a powerful challenge to claims about the insularity of British Islamic institutions by showing how the national orientation of Islam called for by British policymakers is in fact already happening

**Rethinking Warfare in the 21st Century** Julian Chifu,Greg Simons,2023-07-13 A critical and multifaceted analysis of the problems created by the politics and communicated representation of contemporary warfare

Land Grabbing in Africa Fassil Demissie,2017-10-02 The sign that Africa is on Sale has been appearing with regular frequency in major newspaper accounts across the world indicating that large amounts expanses of Africa s rich farmlands are being sold to transnational investors usually on long term leases at a rate not seen in decades indeed not since the colonial period Transnational and national economic actors from various business sectors oil and auto mining and forestry food and chemical bioenergy etc are eagerly acquiring or declaring their intention to acquire large areas of land on which to build maintain or extend large scale extractive and agro industrial enterprises to help secure their own food and energy needs into the future This book provides a critical appraisal of the growing phenomenon of land grabbing in Africa Far from being a technical issue associated good governance the problem of land grabbing by transnational corporation and states is a serious threat for the food security of millions of Africans and is undoubtedly one of the great challenges of our time for development on the continent The case studies illustrate that African

states are also complicit in the massive land grabbing by actively participating in isolated development while excluding the local communities. The case studies reveal key features that characterize how the global land grab plays out in specific localities in Africa. This book was published as a special issue of *African Identities*. **Cities and Crisis** Kuniko Fujita, 2013-08-22. Recognizing the deep relations between politics, finance, cities and citizens, this book argues for a rejuvenated account of urban theory. The book emphasises the need to understand the importance of the 2008 global financial crisis and how the crisis affects cities nested in a variety of political economies. Situating urban theory in the current economic climate, it powerfully illuminates the dynamic between history, theory and practice. Stressing how catastrophic social and economic calamities under the crisis lead to reorganised city structures, city life and city policies, and hence new urban experience, it calls for theoretical perspectives that can speak to these challenging changes. This groundbreaking title is a must for anyone interested in urban life and its rapid movements. It will be especially useful for students and researchers in urban sociology, planning, geography, urban and regional development and urban studies.

**Lessons From The Arctic** Emily Tsui, Thomas S Axworthy, Sara French, 2020-08-06. *Lessons from the Arctic: The Role of Regional Government in International Affairs* is a collection of articles written by twenty-six leading and emerging scholars from across the circumpolar region. Each author assesses and explores the processes of regional governance in the Arctic from an interdisciplinary perspective. The topics include Indigenous internationalism, paradiplomacy, federalism, global institution building and more.

**Decolonization and Conflict** Martin Thomas, Gareth Curless, 2017-06-15. *Insurgency based irregular warfare* typifies armed conflict in the post-Cold War age. For some years now, western and other governments have struggled to contend with ideologically driven guerrilla movements, religiously inspired militias and systematic targeting of civilian populations. Numerous conflicts of this type are rooted in experiences of empire breakdown. Yet few multi-empire studies of decolonisation's violence exist. *Decolonization and Conflict* brings together expertise on a variety of different cases to offer new perspectives on the colonial conflicts that engulfed Europe's empires after 1945. The contributors analyse multiple forms of colonial counter-insurgency, from the military engagement of anti-colonial movements to the forced removal of civilian populations and the application of new doctrines of psychological warfare. Contributors to the collection also show how insurgencies, their propaganda and methods of action, were inherently transnational and interconnected. The resulting study is a vital contribution to our understanding of contested decolonization. It emphasises the global connections at work and reveals the contemporary resonances of both anti-colonial insurgencies and the means devised to counter them. It is essential reading for students and scholars of empire, decolonization and asymmetric warfare.

**Managing FDI for Development in Resource-Rich States** L. Barclay, 2015-04-28. This book is a timely study in light of the resurgence of resource nationalism that is currently occurring in several resource-rich developing countries. It moves away from the traditional explanations for the disappointing economic performance of resource-rich developing countries, notably those advanced by key researchers

 how youth as shown by the Arab Spring uprisings and subsequent state responses became a prominent social and political  
 category during the first two decades of the twenty first century in the Middle East Drawing on ethnographic fieldwork  
 interview data and textual analysis Mayssoun Sukarieh explains that the spread of youth as an important category is linked to  
 the operation of a global youth development complex a diverse transnational network of state private sector civil society and  
 international development aid organizations that worked through key urban areas such as Washington DC Amman and Dubai  
 In its analysis of the arrival extension and embedding of the youth development complex in the Middle East during this
