The Walking Dead at Saqqara Lara Weiss, 2022-06-21 Funerary rituals and the cult of the dead are classics of research in religious studies especially for ancient Egypt Still we know relatively little about how people interacted in daily life at the city of Memphis and its Saqqara necropolis in the late second millennium BCE By focussing on lived ancient religion we can see that the social and religious strategies employed by the individuals at Saqqara are not just means on the way to religious post mortem salvation nor is their self representation simply intended to manifest social status On the contrary the religious practices at Saqqara show in their complex spatiality a wide spectrum of options to configure sociality before and after one s own death The analytical distinction between religion and other forms of human practices and sociality illuminates the range of cultural practices and how people selected modified or even avoided certain religious practices As a result pre funerary funerary and practices of the subsequent mortuary cults in close connection with religious practices directed towards other ancestors and deities allow the formation of imagined and functioning reminiscence clusters as central social groups at Saqqara creating a heuristic model applicable also to other contexts

The Great Music City Andrea Baker, 2019-03-01 In the 1960s as gentrification took hold of New York City Jane Jacobs

predicted that the city would become the true player in the global system. Indeed in the 21st century more meaningful comparisons can be made between cities than between nations and states. Based on case studies of Melbourne, Austin and Berlin, this book is the first in-depth study to combine academic and industry analysis of the music cities phenomenon. Using four distinctly defined algorithms as benchmarks, it interrogates Richard Florida's creative cities thesis and applies a much needed synergy of urban sociology and musicology to the concept mediated by a journalism lens. Building on seminal work by Robert Park, Lewis Mumford and Jane Jacobs, it argues that journalists are the cultural branders and street theorists whose ethnographic approach offers critical insights into the urban sociability of music activity.

Carceral Mobilities Jennifer Turner, Kimberley Peters, 2016-12-01. Mobilities research is now centre stage in the social sciences with wide-ranging work that considers the politics underscoring the movements of people and objects, critically examining a world that is ever on the move. At first glance, the words 'carceral' and 'mobilities' seem to sit uneasily together. This book challenges the assumption that carceral life is characterised by a lack of movement. *Carceral Mobilities* brings together contributions that speak to contemporary debates across carceral studies and mobilities research, offering fresh insights to both areas by identifying and unpicking the manifold mobilities that shape and are shaped by carceral regimes. It features four sections that move the reader through the varying typologies of motion, underscoring carceral life, tension, circulation, distribution and transition. Each mobilities-led section seeks to explore the politics encapsulated in specific regimes of carceral movement. With contributions from leading scholars and a range of international examples, this book provides an authoritative voice on carceral mobilities from a variety of perspectives, including criminology, sociology, history, cultural theory, human geography and urban planning. This book offers a first port of call for those examining spaces of detention, asylum, imprisonment and containment, who are increasingly interested in questions of movement in relation to the management, control and confinement of populations.

In the spirit of Gretchen Rubin's megaseller *The Happiness Project* and Eric Weiner's *The Geography of Bliss*, a journalist embarks on a project to discover what it takes to love where you live. The average restless American will move 11.7 times in a lifetime. For Melody Warnick, it was move 6, from Austin, Texas, to Blacksburg, Virginia, that threatened to unhinge her. In the lonely aftermath of unpacking, she wondered: Aren't we supposed to put down roots at some

point How does the place we live become the place we want to stay This time she had an epiphany Rather than hold her breath and hope this new town would be her family s perfect fit she would figure out how to fall in love with it no matter what How we come to feel at home in our towns and cities is what Warnick sets out to discover in This Is Where You Belong She dives into the body of research around place attachment the deep sense of connection that binds some of us to our cities and increases our physical and emotional well being then travels to towns across America to see it in action Inspired by a growing movement of placemaking she examines what its practitioners are doing to create likeable locales She also speaks with frequent movers and loyal stayers around the country to learn what draws highly mobile Americans to a new city and what makes us stay The best ideas she imports to her adopted hometown of Blacksburg for a series of Love Where You Live experiments designed to make her feel more locally connected Dining with her neighbors Shopping Small Business Saturday Marching in the town Christmas parade Can these efforts make a halfhearted resident happier Will Blacksburg be the place she finally stays What Warnick learns will inspire you to embrace your own community and perhaps discover that the place where you live right now is home

Creating Enemies David Mattingly, 2015-09-15 The Bush administration planned the invasion of Iraq to be a quick in and out operation without dedicating a large force for the invasion and the aftermath The honeymoon period immediately after the invasion closed and the insurgency movement emerged and grew when the Coalition Provisional Authority disbanded the army and banned the Ba ath Party and most of its members from participating in the new government The results of the orders created an insurgency war that the U S and Coalition forces had not planned to fight The war created numerous domestic and foreign insurgency groups and militias as well as a largely under governed area in Western Iraq on the Syrian border The Syrian Civil War drew a number of groups into the country to fight along the pro Shi a and pro Sunni factions The insurgency war born in the aftermath of the invasion has created regional instability and conflict The war has also crippled the U S in reacting to other global conflicts at a time when Russia is increasing its involvement in world affairs

Civic Engagement in Food System Governance Alan R. Hunt, 2015-10-05 The local food movement is one of the most active of current civil engagement social movements This work presents primary evidence from over 900 documents interviews and participant observations and provides the first descriptive history of local food movement national policy achievements in the US from 1976 to 2013 and in the UK from 1991 to 2013 together with reviews of both the American and British local food movements It provides a US UK comparative context significantly updating earlier comparisons of American British and European farm and rural policies The comparative perspective shows that over time

more effective strategies for national policy change required social movement building strategies such as collaborative policy coalitions capacity building for smaller organizations and policy entrepreneurship for joining together separate rural farming food and health interests In contrast narrowly defined single issue campaigns often undermined long term policy change even if short term wins emerged By profiling interviews of American and English movement leaders policymakers and funders the book demonstrates that democratic participation in food policy is best supported when funders incentivize groups to work together and overcome their differences
