Advances in Shipping Data Analysis and Modeling César Ducruet, 2017-11-06 Shipping flows maritime footprints remain underexplored in the existing literature despite the crucial importance of freight transport for global trade and economic development Additionally decision makers lack a comprehensive view on how shipping flows can be measured analyzed and mapped in order to support their policies and strategies This interdisciplinary volume drawing on an international cast list of experts explores a number of crucial issues in shipping data estimation construction collection mining analysis visualization and mapping *Advances in Shipping Data Analysis and Modeling* delivers several key messages First that in a world of just in time delivery and rapid freight transit it is important to bear in mind the long term roots of current trends as well as foreseeable future developments because shipping patterns exhibit recurrent if not cyclical and

path dependent dynamics Second shipping flows are currently often understood at the micro level of intra urban logistics delivery and at the national level using commodity flow analyses but this volume emphasizes the need to expand the scale of analysis by offering new evidence on the changing distribution of global and international shipping flows based on actual data Third that this multidisciplinary approach to shipping flows can shed important light on crucial issues that go beyond shipping itself including climate change urban development technological change commodity specialization digital humanities navigation patterns international trade and regional growth Edited by experts in their field this volume is of upmost importance to those who study industrial economics shipping industries and economic and transport geography

ECGBL2013-Proceedings of the 6th European Conference on Games Based Learning Patrick Felicia,2012

Myanmar's Enemy Within Francis Wade,2019-06-15 In 2017 Myanmar's military launched a campaign of violence against the Rohingya minority that UN experts later said amounted to a genocide More than seven hundred thousand civilians fled to Bangladesh in what became the most concentrated flight of refugees since the Rwanda genocide of 1994 The warning signs of impending catastrophe that had built over years were downplayed by Western backers of the political transition and only when the exodus began did the world finally come to acknowledge a catastrophe that had been long in the making In this updated edition of the book that foreshadowed a genocide Francis Wade explores how the manipulation of identities by an anxious ruling elite laid the foundations for mass violence It asks who gets to define a nation How can democratic rights be weaponised against a minority And why at a time when the majority of citizens in Myanmar had begun to experience freedoms unseen for half a century did much lauded civilian leaders like Aung San Suu Kyi become complicit in the most heinous of crimes

Geographies of Postsecularity Paul Cloke,Christopher Baker,Callum Sutherland,Andrew Williams,2019-01-03 This book explores the hopeful possibility that emerging geographies of postsecularity are able to contribute significantly to the understanding of how common life may be shared and how caring for the common goods of social justice well being equality solidarity and respect for difference may be imagined and practiced Drawing on recent geographic theory to recalibrate ideas of the postsecular public sphere the authors develop the case for postsecularity as a condition of being that is characterised by practices of receptive generosity rapprochement between

religious and secular ethics and a hopeful re enchantment and re shaping of desire towards common life The authors highlight the contested formation of ethical subjectivity under neoliberalism and the emergence of postsecularity within this process as an ethically attuned politics which changes relations between religion and secularity and animates novel hopeful imaginations subjectivities and praxes as alternatives to neoliberal norms The spaces and subjectivities of emergent postsecularity are examined through a series of innovative case studies including food banks drug and alcohol treatment refugee humanitarian activism in Calais homeless participatory art projects community responses to the Christchurch earthquakes in New Zealand amongst others The book also traces the global conditions for postsecularity beyond the Western and predominantly Christian secular nexus of engagement This is a valuable resource for students in several academic disciplines including geography sociology politics religious studies international development and anthropology It will be of great interest to secular and faith based practitioners working in religion spirituality politics or more widely in public policy urban planning and community development

Ethnic Relations in Post-Soviet Russia Andrew Foxall,2014-10-03 While the collapse of communism in Russia was relatively peaceful ethnic relations have been deteriorating since then This deterioration poses a threat to the functioning of the Russian state and is a major obstacle to its future development Analysing ethnic relations in the North Caucasus this book demonstrates how a myriad of processes that characterised post Soviet transition including demographic change economic upheaval geopolitical instability and political restructuring have affected daily life for citizens It raises important questions about ethnicity identity nationalism sovereignty and territoriality in the post Soviet space

Page and Place: Ongoing Compositions of Plot Jon Anderson,2014-10-15 If people are geographical beings what can fiction tell us about this truth This book explores how literature can help us understand the nature of the relations between people and place how humans create connections between their identities and their geographies and how these can be threatened and lost Literature is an important if unusual way to explore these relations At once centred in imagination and ideas fiction is also indelibly connected to as well as influenced by the geographies in which it is set As this book argues the relationship between fiction and location is so important that it is often difficult to know which is imagined and which is real Exploring the relations between people and place through fiction writing set in Wales Page and Place garners poetic insight into how places are written into our stories and how these stories take and make the places around us The book introduces the notion of plot to describe the complex entanglement between fiction and geography and to help understand the role that places play in defining human identity

The Acoustics of the Social on Page and Screen Nathalie Aghoro,2021-09-09 Sound positions individuals as social subjects The presence of human beings animals objects or technologies reverberates into the spaces we inhabit and produces distinct soundscapes that render social practices group associations and socio cultural tensions audible The Acoustics of the Social on Page and Screen unites interdisciplinary perspectives on the social dimensions of sound in audiovisual and literary environments The

essays in the collection discuss soundtracks for shared values group membership and collective agency and engage with the subversive functions of sound and sonic forms of resistance in American literature film and TV *Institutional Challenges to Intermodal Transport and Logistics* Jason Monios, 2016-05-23 While the operational realities of intermodal transport are relatively well known the institutional challenges are less well understood This book provides an overview of intermodal transport and logistics including the policy background emerging industry trends and academic approaches Establishing the three key features of intermodal transport geography as intermodal terminals inland logistics and hinterland corridors Jason Monios takes an institutional approach to understanding the difficulties of successful intermodal transport and logistics Key areas of investigation include the policy and planning background the roles of public and private stakeholders and the identification of emerging strategy conflicts Substantial empirical content situates the theoretical and practical issues in real world examples via three detailed case study chapters covering the USA UK and Europe making the book useful to students as well as practitioners desiring an understanding of how intermodal transport and logistics work in practice The identified challenges to intermodal transport and logistics are used to demonstrate how competing port and inland strategies can inhibit the necessary processes of integration required to underpin successful intermodal transport The book concludes with a look at the future of institutional adaptation that may enhance the capacity of freight actors to engage with intermodal transport developments *Sustainable Livelihoods of Tribal Communities in Odisha, India* Narayan Chandra Jana, Anuradha Banerjee, Prasanta Kumar Ghosh, 2022-12-08 In India indigenous tribal communities are the most backward sections of the society and they have been a matter of great concern for the Government More than 87 per cent of the country's tribal population is confined to 11 states among which Odisha has the largest number of tribal communities and Mayurbhanj district has the highest concentration of tribes Throughout the history of development tribal communities were trapped in a vicious circle of exploitation This led to social discontent and unrest resulting in extremist activities which can be prevented only by more meaningful development of the tribal areas This book is divided into 10 chapters each dealing with very crucial and relevant issues It will be useful for policy makers dealing with livelihood issues social exclusion and tribal development related projects *Routledge Companion to Creativity and the Built Environment* Julie T. Miao, Tan Yigitcanlar, 2024-03-29 This book critically examines the reciprocal relationship between creativity and the built environment and features leading voices from across the world in a debate on originating learning modifying and plagiarizing creativities within the built environment The Companion includes contributions from architecture design planning construction real estate economics urban studies geography sociology and public policies Contributors review the current field and proposes new conceptual frameworks research methodologies and directions for research policy and practice Chapters are organised into five sections each drawing on cross disciplinary insights and debates Section I connects creativity productivity and economic growth and examines how our built environment stimulates or intimidates human imaginations Section II addresses how hard

End Time Rewind: An Exploration In Bible Prophecy And The Fate Of The World Steven Sabatino, Remember when End Time Rewind warned you not to fall for the Doomsday Rapture theories of Dispensational Premillennialism and their Zionist partners Well now that we ve survived John Hagee s Four Blood Moons Jonathan Cahn s Super Shemitah and the menacing tentacles of the now defunct European Union and Islamic State the supposed Beast Kingdoms of Revelation 17 the Futurist s next false claim centers around the 70 year anniversary of Israel s founding Is the Jewish State really the prophetic clock by which God aligns world events and the return of Christ Many Doomsday Rapture forecasts have been put forth in the name of Futurism since the 2nd century AD none of which have come to fruition This is disconcerting because failed predictions and false expectations promoted by our Christian counterparts diminishes the credibility of the Bible and scars the reputation and integrity of the Prophetic Office of Jesus Christ The age old tried and true Orthodox aka Partial or Classical Preterist approach maintains that the majority of Bible prophecies were already fulfilled by the end of the first century AD and included Jesus appearing in an Old Testament styled non physical manifestation with power and great glory All that remains to be accomplished in the future is for Jesus Christ to physically return to raise the dead which is when the rapture also occurs preside over the final judgment and create a new heaven and earth devoid of sin and death where the new and holy Jerusalem from heaven descends as per Revelation 20 7 Revelation 22 5

Sustainable Transportation in Natural and Protected Areas Francesco Orsi, 2015-07-16 Protected areas are at the centre of nature based tourism which is increasingly popular across the world As visitor numbers increase so does awareness of the harmful effects that large crowds may have on both natural resources and individuals recreational experience This volume considers the challenge of transportation to and within natural and protected areas the improvement of which has already been recognised as having great potential for mitigating the environmental impacts of ecotourism While several books have focused considerable attention to the management of protected areas in general little has been said about the specific issue of sustainable transport an emerging trend that is already reshaping visitation patterns in natural settings This book provides current knowledge on issues associated with the transportation of visitors in natural and protected areas and a

comprehensive overview of the technical and strategic options available to tackle these issues It approaches the subject via three main topics preferences or the visitors attitudes towards transportation practices where current approaches are assessed through examples and case studies of successful experiences and methodologies from around the world and policies where suggestions and recommendations are put forward for both local scale strategies and broad scale regulatory action with global relevance Contributors include academics in the field of natural resource management and tourism with extensive experience in protected area management and active partnerships with natural park administrations
