For more than half a century the developed world has been chasing productivity It s financed our wealth but that part of output on which our continued prosperity depends productivity growth is petering out The traditional scapegoat has been the dearth of worker skills But the worker skills base has never been higher The other explanation is that it is managers who are not giving full value to their employers The way they re making decisions is conferring virtually no upside potential which means they re leaving us wide open for experience

poor competitors to step into our experience rich shoes Exactly as Japan did in the 1960s and the so called BRICK countries Brazil Russia India China especially China and Korea are threatening now If creeping uncompetitiveness is not to overtake us from where are the next round of productivity gains to come from Identifying some gaping holes in the way managers are taught to manage this book outlines both the size of the problem and a solution Businesses and other organizations the author says have to substantially raise the quality of their decision making For this to happen they need to be much better experiential learners And for experiential learning to take place companies and other institutions have to better manage their corporate DNA the institution specific experiences otherwise known as Organizational Memory OM which characterizes any organization s ability to perform is the single biggest influence on decision making excellence It is a factor of production that has already been paid for at great expense yet is readily discarded in the backwash of the biggest change in workplace practice for more than a century the actively encouraged flexible labour market Corporate DNA explains why this key component of intellectual capital should be better managed can be better managed and particularly how it can be used to help organizations reduce the pandemic of repeated mistakes rei The American Produce Review ,1921 **New York Produce Review and American Creamery** ,1922 **TOPIK - Self Study Guide** TOPIK GUIDE,2014-03-14 TOPIK The Self Study Guide has been designed by TOPIK Guide team to give self motivated students the best materials to help them prepare for the TOPIK Test of Proficiency in Korean Complete Guide to TOPIK Self Study Package includes the following Complete Guide to TOPIK E Book containing detailed preparation strategies for all 4 sections of TOPIK test More than 4 Hours of Video Lessons analyzing and Explaining TOPIK papers Both Old and New TOPIK Formats Comprehensive Grammar Vocabulary study material for all TOPIK Levels 15 pages Guide for TOPIK Essay Writing Past TOPIK Papers and Solutions in a well organized Format Lifetime Access to All updated Future Editions Equally useful for all 3 levels Beginner Intermediate Advanced Guidance for New TOPIK Format *The Education Gazette of the Province of the Cape of Good Hope* Cape of Good Hope (South Africa).
