Science in an Age of Unreason John Staddon, 2022-06-07 Science is undergoing an identity crisis A renown psychologist and biologist diagnoses our age of wishful magical thinking and blasts out a clarion call for a return to reason and the search for objective knowledge and truth Fans of Matt Ridley and Nicholas Wade will adore this trenchant meditation and call to action Science is in trouble Real questions in desperate need of answers especially those surrounding ethnicity gender climate change and almost anything related to health and safety are swiftly buckling to the fiery societal demands of what ought to be rather than what is These foregone conclusions may be comforting but each capitulation to modernity s whims threatens the integrity of scientific inquiry Can true fact based discovery be redeemed In *Science in an Age of Unreason* legendary professor of psychology and biology John Staddon unveils the identity crisis afflicting today s scientific community and provides an actionable path to recovery With intellectual depth and literary flair Staddon answers pressing questions including Is science especially the science of evolution a religion Can ethics be derived from science at all How sound is social science particularly surrounding today s most controversial topics How can passions be separated from facts Informed by decades of expertise *Science in an Age of Unreason* is a clarion call to rebirth academia as a beacon of reason and truth in a society demanding its unconditional submission

The Gamification of Higher Education N. Niman, 2014-07-17 Instead of thinking about education as the mastery of a body of knowledge where the subject matter becomes the focus of our attention *The Gamification of Higher Education* encourages us to think of it as a process that draws out the best in individuals and prepares them for happy productive and successful lives

Excellence Gaps in Education Jonathan A. Plucker, Scott J. Peters, 2020-01-15 2017 Texas Association for Gifted and Talented Legacy Scholar Book Award 2017 National Association of Gifted Children Scholar Book of the Year Award In *Excellence Gaps in Education* Jonathan A Plucker and Scott J Peters shine a spotlight on excellence gaps the achievement gaps among subgroups of students performing at the highest levels of achievement Much of the focus of recent education reform has been on closing gaps in achievement between students from different racial ethnic or socioeconomic backgrounds by bringing all students up to minimum levels of proficiency Yet issues related to excellence gaps have been largely absent from discussions about how to improve our schools and communities Plucker and Peters argue that these significant gaps reflect the existence of a persistent talent underclass in the United States among African American Hispanic Native American and poor students resulting in an incalculable loss of potential among our fastest growing populations Drawing on the latest research and a wide range of national and international data the authors outline the scope of the problem and make the case that excellence gaps should be targeted for elimination They identify promising interventions for talent development already underway in

schools and provide a detailed review of potential strategies including universal screening flexible grouping targeted programs and psychosocial interventions Excellence Gaps in Education has the potential for changing our national conversation about equity and excellence and bringing fresh attention to the needs of high potential students from underrepresented backgrounds

Forestry Economics John E. Wagner, 2023-12-22 Forestry Economics introduces students and practitioners to the economics of managing forests and forest enterprises The book adopts the approach of managerial economics textbooks and applies this to the unique problems and production processes faced by managers of forests and forest enterprises What many future forest and natural resource managers need is to understand what economic information is and how to use it to make better business and management decisions John E Wagner draws on his 30 years of experience teaching and working in the field of forest resource economics to present students with an accessible understanding of the unique production processes and problems faced by forest and other natural resource managers The second edition has been updated to include Expanded discussion of compounding discounting and capital budgeting as well as an expanded discussion of when to replace a capital asset that has i costs but no direct revenue stream such as a machine ii costs and a direct annual revenue stream such as a solar array or iii costs and a periodic revenue stream illustrated by the forest rotation problem New practical examples to provide students with applications of the concepts being discussed in the text most notably on New Zealand and a Radiata Pine Pinus radiata Plantation A brand new chapter that develops business plans for for profit businesses to illustrate how a business plan is derived from the economic information contained within the Architectural Plan for Profit and how it can be used to make business decisions about continuing to operate a business or to start a new business This textbook is an invaluable source of clear and accessible information on forestry economics and management not only for economics

students but also for students of other disciplines and those already working in forestry and natural resources *Back on Track* Mark Aldrich, 2018-02-15 A fascinating account of one of America's most important industries and its dangers Throughout the early twentieth century railroad safety steadily improved across the United States But by the 1960s American railroads had fallen apart the result of a regulatory straightjacket that eroded profitability and undermined safety Collisions derailments worker fatalities and grade crossing mishaps skyrocketed while hazmat disasters exploded into newspaper headlines In *Back on Track* his sequel to *Death Rode the Rails* Mark Aldrich traces the history of railroad accidents beginning in 1965 when Congress responded to bankrupt and scandal ridden carriers by enacting a new safety regime Aldrich details

the federalization of rail safety and the implementation of a massive grade crossing program He touches on post 1976 economic deregulation which provided critical financing that underwrote better public safety He also explores how the National Transportation Safety Board acted as a public scold to shine bright lights on private failings while Federal Railroad Administration regulations reinforced market incentives for better safety Ultimately Aldrich concludes the past 50 years have seen great strides in restoring railroad safety while enhancing industry profitability Arguing that it was not inadequate safety regulation but rather stifling economic regulation that initially caused an uptick in train accidents Back on Track is both a paen to the return of more competitive railroading and the only comprehensive history of the safety of modern American railroads Praise for Death Rode the Rails A masterful study of the complex evolution of railroad safety American Historical Review Students of rail safety and today's Class I railroad managers need to read this volume Trains Aldrich has created a masterpiece His research is extensive drawing on a rich variety of obscure yet relevant sources Register of the Kentucky Historical Society One of the first large scale scholarly studies of railroad safety in America Railroad History A thought provoking and well grounded contribution to the history of American economic development Journal of American History Pioneering A central message of Aldrich's book is that little accidents played a crucial though until now largely hidden role in the gradual evolution of a risk society Technology and Culture A work of merit essential reading for historians of transport safety business and technology Journal of Transport History Impressive and thoroughly researched Demonstrates how railroad safety evolved from the intersection of market pressures technology and public sentiment Journal of Southern History

Teaching Social Studies in the Early Childhood Classroom Jean Kirshner, Jenny Pettit, 2025-01-23 This textbook develops early childhood teachers capacity to effectively instruct democratic principles to our youngest citizens As our world experiences political polarization pandemics heightened racial tension and the evolving awareness of gender and LGBTQ issues this textbook addresses those topics as they show up in the early childhood classroom offering research informed practical guidance for pre and in service teachers The book is organized around 12 themes 10 of which are based on the National Council for Social Studies NCSS themes in addition to the anti racist anti bias curriculum and gender expansive principals from the National Association for the Education of Young Children NAEYC closely following social studies content standards from across the United States The themes covered are culture and cultural diversity history geography identity gender roles and gender identity institutions power and authority economics science and technology global citizenship and civic ideals and practice Throughout each chapter you will come to know 5 early childhood classrooms and including profiles

of the teachers students communities These five spaces represent a variety of early childhood teachers different age groups of students and diverse communities and show how the lesson learned in each chapter can be applied in classroom settings This book provides developmentally appropriate ways to teach relevant and current social studies content to our very youngest learners emphasizing the fact that these very children will grow to be the next stewards of our global community

International Practices to Promote Budget Literacy Harika Masud, Helene Pfeil, Sanjay Agarwal, Alfredo Gonzalez Briseno, 2017-08-09 Budget literacy is defined as the ability to read decipher and understand public budgets to enable and enhance meaningful citizen participation in the budget process It is comprised of two main parts i a technical understanding of public budgets including familiarity with government spending tax rates and public debt and ii the ability to engage in the budget process comprising of practical knowledge on day to day issues as well as an elementary understanding of the economic social and political implications of budget policies the stakeholders involved and when and how to provide inputs during the annual budget cycle Given that no international standards or guidelines have been established for budget literacy education to date this book seeks to address this gap by taking stock of illustrative initiatives promoting budget literacy for youth in selected countries The underlying presumption is that when supply side actors in the budget process governments simplify and disseminate budget information for demand side actors citizens this information will then be used by citizens to provide feedback on the budget However since citizens are often insufficiently informed about public budgets to constructively participate in budget processes one way to empower them and to remedy the problem of budget illiteracy is to provide budget literacy education in schools to youth helping them evolve into civic minded adults with the essential knowledge needed for analyzing their government's fiscal policy objectives and measures and the confidence and sense of social responsibility to participate in the oversight of public resources This book elaborates on approaches learning outcomes pedagogical strategies and assessment approaches for budget literacy education and presents lessons that are relevant for the development improvement or scaling up of budget literacy initiatives **ERDA Energy Research Abstracts** United States. Energy Research and Development Administration, 1976 Critical Reflections on Public Private Partnerships Jasmine Gideon, Elaine Unterhalter, 2020-12-21 This book argues that despite the hype within many policy circles there is actually very little evidence to support the presumed benefits of Public Private Partnerships PPPs in reducing poverty and addressing inequalities in the provision of and access to public services Taking a cross sectoral comparative approach this book investigates how PPPs have played out in practice and what the implications have been for inequalities Drawing on a range of empirical case studies in education healthcare housing and water the book picks apart the roles of PPPs as financing mechanisms in several international and national contexts and considers the similarities and differences between sectors The global COVID 19 pandemic has raised significant questions about the future of social provision and through its analysis of the emergence and expansion of the role of PPPs the book also makes a vital contribution to current discussion over this rapidly

changing landscape Overall this wide ranging guide to understanding and evaluating the role of PPPs in the Global South will be useful to researchers within development international relations economics and related fields as well as to policy makers and practitioners working in development related policy **Colorado School Laws** Colorado,2014
