Reconceptualizing English Education in a Multilingual Society Isabel Pefianco Martin, 2018-03-01 This book brings together chapters that describe, investigate and analyze the place of English in education in multilingual Philippines. Unlike most studies on languages in education which take a neutral de-contextualized stance, this volume takes a pluricentric view of the English language by positioning it in relation to its varieties as well as to other languages in the country. Because of the changing realities of English in the Philippines, traditional assumptions about the language as monolithic and unchanging as well as about how it should be taught and learned need to be revisited and re-conceptualized.
