**Drum**, 2009      **Farmer's Weekly**, 1926      **Past, Present, Future** Johannes de Moor, H.R. van Rooy, 2021-11-22 In the politico religious history of the Deuteronomists past present and future mingle in an often inextricable way Long obsolete traditions which had been unacceptable to the Davidic dynasty were rediscovered and adapted to the aims of the Deuteronomists Personages of the past were condemned and blackened in the light of the new ideology whereas others were glorified and embellished as heroes of faith because their ideas suited the historians This inevitably raises the question whether the Bible can be trusted as a source book for writing a history of Israel Apparently not say scholars like T L Thompson P R Davies and N P Lemche In this volume a number of authors take up this challenge stating that the radical rejection of the biblical testimony in favour of a history based mainly on archaeology is ill advised Several contributions to this volume draw instructive parallels between the process of re writing the history of South Africa and the work of the Deuteronomists      *The Engineer*, 1892      **From Migrants to Citizens** T. Alexander Aleinikoff, Douglas Klusmeyer, 2013-01-25 Citizenship policies are changing rapidly in the face of global migration trends and the inevitable ethnic and racial diversity that follows The debates are fierce What should the requirements of citizenship be How can multi ethnic states forge a collective identity around a common set of values beliefs and practices What are appropriate criteria for admission and rights and duties of citizens This book includes nine case studies that investigate immigration and citizenship in Australia the Baltic States Canada the European Union Israel Mexico Russia South Africa and the United States This complete collection of essays scrutinizes the concrete rules and policies by which states administer citizenship and highlights similarities and differences in their policies From Migrants to Citizens the only comprehensive guide to citizenship policies in these liberal democratic and emerging states will be an invaluable reference for scholars in law political science and citizenship theory Policymakers and government officials involved in managing citizenship policy in the United States and abroad will find this an excellent accessible overview of the critical dilemmas that multi ethnic societies face as a result of migration and global interdependencies at the end of the twentieth century      *When Political Transitions Work* Fanie du Toit, 2018-07-26 The peaceful end of apartheid in South Africa was a monumental event in late twentieth century history A racist regime built upon a foundation of colonialist exploitation South Africa had become by that point a tinderbox suffused with day to day violence and political extremism on all sides Yet two decades later it was a stable democracy with a growing economy How did such a deeply divided conflicted society manage this remarkable transition In *When Political Transitions Work* Fanie du Toit who has been a participant and close observer in post conflict developments throughout Africa for decades offers a new theory for why South Africa's reconciliation worked and why its lessons remain relevant for other nations emerging from civil conflicts He uses reconciliation as a framework for political transition and seeks to answer three key questions how do the reconciliation processes begin how can political transitions result in inclusive and fair institutional

change and to what extent does reconciliation change the way a society functions Looking at South Africa one of reconciliation's most celebrated cases Du Toit shows that the key ingredient to successful reconciliations is acknowledging the centrality of relationships He further develops his own theoretical approach to reconciliation as interdependence the idea that reconciliation is the result of an integrated process of courageous leadership fair and inclusive institutions and social change built toward a mutual goal of prosperity As Du Toit conveys the motivation for reconciliation is the long term well being of one's own community as well as that of enemy groups Without ensuring the conditions in which one's enemy can flourish one's own community is unlikely to prosper sustainably
