**Economic Growth and the Middle Class in an Economy in Transition** Zoya Nissanov,2017-01-24 This book studies the evolution of the middle class in Russia after the fall of the Soviet Union Using data from the RLMS Russian Longitudinal Monitoring Survey the volume covers the period of transition 1991 2008 during which many fundamental economic reforms were

implemented The first part of the book is devoted to a discussion of the concept of middle class and a description of the economic situation in Russia during the transition period Particular attention is given to variations in the distribution of Russian incomes and the estimated importance of the middle class The second part of the book focuses on the link between the middle class and income bipolarization The third and last section of the book uses the semiparametric mixture model to discover how many different groups may be derived from the income distribution in Russia as well as what the main socio economic and demographic characteristics of those groups are The mobility of households into and out of the middle class during the transition period is also studied in hopes of determining the factors that contribute to such mobility Using rigorous empirical methods this volume sheds light on a relatively unstudied economic group and provides insight for countries which are about to enter a transition period As such this book will be of great interest to researchers in economics and inequality as well as professionals and practitioners working with international organizations
