

Hitachi Remote Control Manual

Michael A. Cusumano

Hitachi Remote Control Manual:

Guide to HDTV Systems Conrad Persson,1999 As HDTV is developed refined and becomes more available to the masses technicians will be required to service them Up until now precious little information has been available on the subject This book provides a detailed background on what HDTV is the technical standards involved how HDTV signals are generated and transmitted and a generalized description of the circuitry an HDTV set consists of **Japan's Software Factories**

Michael A. Cusumano,1991-05-16 Though Japan has successfully competed with U S companies in the manufacturing and marketing of computer hardware it has been less successful in developing computer programs This book contains the first detailed analysis of how Japanese firms have tried to redress this imbalance by applying their skills in engineering and production management to software development Cusumano focuses on the creation of software factories in which large numbers of people are engaged in developing software in cooperative ways i e individual programs are not developed in isolation but rather utilize portions of other programs already developed whenever possible and then yield usable portions for other programs being written Devoting chapters to working methods at System Developing Corp Hitachi Toshiba NEC and Fujitsu and including a comparison of Japanese and U S software factories Cusumano s book will be important reading for all people involved in software and computer technology as well as those interested in Japanese business and corporate culture

Henderson, Fay Humphreys, 1983 *A Practical Guide to Price Index and Hedonic Techniques* Ana M. Aizcorbe, 2014-06-12

This book provides an accessible guide to price index and hedonic techniques with a focus on how to best apply these techniques and interpret the resulting measures One goal of this book is to provide first hand experience at constructing these measures with guidance on practical issues such as what the ideal data would look like and how best to construct these measures when the data are less than ideal A related objective is to fill the wide gulf between the necessarily simplistic elementary treatments in textbooks and the very complex discussions found in the theoretical and empirical measurement literature Here the theoretical results are summarized in an intuitive way and their numerical importance is illustrated using data and results from existing studies Finally while the aim of much of the existing literature is to better understand official price indexes like the Consumer Price Index the emphasis here is more practical to provide the needed tools for individuals to apply these techniques on their own As new datasets become increasingly accessible tools like these will be needed to obtain summary price measures Indeed these techniques have been applied for years in antitrust cases that involve pricing where economic experts typically have access to large granular datasets An Investigation of the Uses of Videotape in

Transportation Operations Michael A. Perfater, Gwendolyn Harris, 1987 The report presents the findings of a survey on the use of video technology in the transportation industry A search of transportation related publications was performed and all state transportation departments were asked how videotape was being used to enhance operations The study revealed that videotape was being used for training the documentation of research and traffic studies Several departments had replaced photolog systems with videolog systems using tape convertible to video laser discs *PC Mag*, 2001-02-06 PCMag.com is a
