Information Literacy Instruction Amy R. Hofer, Silvia Lin Hanick, Lori Townsend, 2018-11-16 Provides information literacy
 practitioners with a thorough exploration of how threshold concepts can be applied to information literacy identifying
 important elements and connections between each concept and relating theory to practical methods that can transform how
 librarians teach A model that emerged from the Enhancing Teaching Learning Environments project in Great Britain
 threshold concepts are those transformative core ideas and processes in a given discipline that define the ways of thinking
 and practicing shared by experts Once a learner grasps a threshold concept new pathways to understanding and learning are
 opened up The authors of this book provide readers with both a substantial introduction to and a working knowledge of this
 emerging theory and then describe how it can be adapted for local information literacy instruction contexts Five threshold
 concepts are presented and covered in depth within the context of how they relate and connect to each other The chapters
 offer an in depth explanation of the threshold concepts model and identify how it relates to various disciplines and our own
 discipline information science and to the understandings we want our students to acquire This text will benefit readers in
 these primary audiences academic librarians involved with information literacy efforts at their institutions faculty teaching in
 higher education upper level college administrators involved in academic accreditation and high school librarians working
 with college bound students Arguing with Idiots Glenn Beck, Kevin Balfe, 2009-09-22 Glenn Beck the New York Times

 yourself but they only get more obnoxious Your heart rate quickens You start to sweat But never fear for Glenn Beck has
 stumbled upon the secret formula to winning arguments against people with big mouths and small minds knowing the facts
 And this book is full of them The next time your Idiot Friends tell you how gun control prevents gun violence you ll tell them

all about England's handgun ban see page 53 When they insist that we should copy the UK's health care system you'll recount the horrifying facts you read on page 244 And the next time you hear how produce prices will skyrocket without illegal workers you'll have the perfect rebuttal from page 139 Armed with the ultimate weapon the truth you can now tolerate and who knows maybe even enjoy your encounters with idiots everywhere Idiots can't be identified through voting records look instead for people who hide behind stereotypes embrace partisanship and believe that bumper sticker slogans are a substitute for common sense
