How To Build A Chopper

How To Build A Chopper:

How to Build a Cheap Chopper Timothy Remus, Wolfgang Publications Inc, 2004 Choppers don't have to cost thirty thousand dollars. In fact, a chopper built at home can be had for as little as five thousand dollars. The key is the use of a donor bike for most of the components. *How to Build a Cheap Chopper* documents the construction of four inexpensive choppers with complete start to finish photo sequences. Least expensive is the metric chopper based on a 1970s vintage Japanese four cylinder engine and transmission installed in a hardtail frame. Don't look for billet accessories or a fancy candy paint job on this one. Next up price wise are two bikes built using Buell Sportster drivetrains. The fact is a complete used Buell or Sportster can be had for thousand dollars or less. Now you've got more than an engine, you have wheels and tires, brakes, hardware, lights, harness, and some sheet metal. Bolt all that stuff to a simple hardtail frame to create an almost instant chopper. Most lavish but still cheap by comparison with many of the bikes built today is a big twin chopper built from carefully chosen aftermarket parts. A RevTech engine and five speed tranny set in a Rolling Thunder frame. Accessorize from the swap meet and add a simple one color paint job to create a bike no one needs to be ashamed of.

How to Build a West Coast Chopper Kit Bike Mike Seate, This book presents a step by step guide to building a West Coast Chopper's C F L kit. Kit choppers are hot commodities. While few people can afford to buy a custom built chopper from one of the high end builders like Jesse James bikes that often sell for 100,000 or more, many can afford to buy such bikes in kit form. Because of this, all the high end builders sell their creations in kit form. For example, while Jesse James might build perhaps a dozen custom bikes per year, he sells hundreds of chopper kits. The same is true of any number of other builders like Matt Hotch, Cyril Huze, and Paul Yaffe. Authored by Mike Seate and featuring the photography of Joe Appel, this book is a step by step how to guide for anyone building a kit chopper.

How to Build a Chopper Timothy Remus, 2017-11-08 Choppers are hot again. All you need to decide is what style you want and this book will guide you through the building sequences. It shows how to build a genuine old chopper or a chopper that looks old and has the conveniences of today such as electric start and functioning brakes.

How to Build a Bobber on a Budget Jose de Miguel, 2008-02-15 In the old days, all a person needed to build a killer custom motorcycle was a bike, a set of tools, a little know how, and a creative vision. But with the rise of the high dollar haute moteur Gucci choppers, the true custom bike has gotten out of most riders' reach. Right, Dead wrong. In this book, Jose de Miguel, a custom builder from way back, sets out to prove that those good old days never ended. In the clearest and simplest terms, he shows readers how they can turn odds and ends found around the shop into one off motorcycle parts and make a cheap run of the mill custom build into a drop dead show stopper. Following de Miguel's lead along with his straightforward illustrations, any resourceful owner with rudimentary mechanical skills, a basic tool kit, and most importantly, a modicum of imagination, can build the bobber of his dreams for less than the price of a new bike.

How to Build a Pro Streetbike Mike Seate, Whether it's a big bore high end custom sportbike you're after or a naked bare knuckles

streetfighting drag racer this book has the goods for getting you there In three different scenarios the nation's top builders give blow by blow instructions for completely rebuilding three popular streetbikes from performance modifications and exhaust systems to flawless finishes and detail work Focusing on highly customized Hayabusa drag bikes including a slammed and lowered Suzuki GSX1300R Hayabusa John Dantzler of the Charlotte North Carolina shop Two Wheel Customs outlines the suspension and engine modifications that the serious street and quarter mile racer can make He takes a salvaged late model four cylinder street machine and transforms it into the kind of machine that both professional stunt riders and corner carving enthusiasts favor Next author Mike Seate covers the details on constructing and installing popular modifications everything from engine crash guards and wheelie bars to motocross style handlebars and bikini fairings while stunt riders and streetfighter builders from the United States and Europe weigh in with tips and advice Last but not least the builders at Wisconsin's Patrick's Performance and South Carolina's Coastal Motorcycles provide a step by step account of the construction of two high end custom sportbikes transforming a Yamaha YZF R 1 and a Suzuki GSX R 1000 into the kind of machines that are eye popping everywhere on the streets or on the motorcycle show circuit

Billy Lane's How To Build Old School Choppers, Bobbers and Customs Billy Lane, Billy Lane is the fastest rising star among the high profile custom chopper builders and in this book he offers many of his secrets for building a chopper that will stand out in a crowd This is the ultimate resource for any chopper builder a book designed as a step by step guide to building any type of custom motorcycle This book also covers custom building beyond the chopper genre including the building of bobbers an old school style of custom that has been revived as a hot trend Predating choppers they are on the cutting edge of current biker cool for real riding and are much safer and more functional than choppers Billy Lane has been featured several times on the Discovery Channel's top rated series Biker Build Off and the Monster Garage premiere episode Plus He was Easyriders Builder of the Year and winner of numerous national Best in Show awards This book shows Billy's inside secrets of constructing a complete motorcycle from hand fabricating metalwork to adding the detail parts that will make your bike your own creation and stand out from the crowd Hundreds of color photographs will lead the builder through the construction process

Outlaw Choppers -ECS Mike Seate, Choppers originally the favored rides of outlaw bikers represent the pinnacle of today's motorcycling chic Choppers designed by top builders routinely command six figure prices Once relegated to the scrap heap of pop culture history along with wide lapels mutton chop sideburns and macram 233 vests the chopper has returned to the cultural forefront Today's choppers rigid framed 125 horsepower steeds thrusting their extended forks down America's public highways violate our sensibilities with their sheer outrageousness Outlaw Choppers tells the story of these wild machines where they came from what's going on today and where they're going in the future

Choppers Jeff Savage, 2010 Describes the first choppers how modern choppers are built and lists popular rallies where owners can display their one of a kind creations
